

**L. A. Woman Fights Police to Save Son In Mystery Murder**

Failing in the efforts to get information from Denzel Chester, accused of murdering Florence Barton, young Kansas City society girl, authorities have resorted to the laughing gas method of making him talk. But Mrs. Lillian Chester, "Dennie's" mother, came from Los Angeles and is opposing the alleged "third degree" methods of the police to make her son talk. Above are shown Florence Barton, (left), "Dennie" Chester, (center), and Mrs. Chester, (right).

**SOLONS OPPOSE LARGER NAVY PROGRAM**

WASHINGTON, Dec. 14.—The request of Secretary Daniels that congress authorize another three-year naval building program if the United States does not enter a league of nations, will be refused by the house naval affairs committee, a canvass of committee members today showed.

The committee is virtually unanimous against the suggestion of Daniels, who appeared before it today to outline the reasons for his request for a construction program calling for 88 ships.

The 1918 program, according to Chairman Butler and other committee members, upon its completion, which probably will be by January 1, 1924, will make the United States the greatest naval power in the world, even allowing for some uncompleted additional construction by Great Britain.

"The completion of the present building program will give the United States a supremacy of 31 per cent over Great Britain in the first line fighting ships—dreadnaughts and battle cruisers," said Representative Britton, Illinois, a member of the committee.

Daniels said navy recruiting is increasing, the enlisted strength going from 100,000 to 130,000 during the last year.

He recommended the removal of the naval war college from Newport, R. I., to Washington, so that it can be in close touch with naval operations.

**BEGGARS INFESTING RIVERSIDE STREETS**

RIVERSIDE, Dec. 14.—This city has been invaded, it is said, during the past few days—and nights—by a small army of beggars, who approach the "easy" looking pedestrian with a whining call for the "price of a sandwich" or a "cup of coffee."

Or maybe it is sufficient dinero to secure a place to rest their weary bones the balance of the night that the panhandler wants.

One surprising feature of the influx of intentionally unemployed is the youth and robustness of many. Strong, well built young fellows seemingly of good American type predominate. Chaps that make a person wonder if they are new to the open road—and why they are "on the bum," anyway. Your old-time, be-whiskered, half crippled hobo seems to have given place to the newer, younger, healthier sort.

Riverside police have been consistently rounding up the beggars and, after hearing them into the municipal bastille, sending them on their way with dire threats of rock pile activities should they return this way.

**JAPS ARE CHANGING MATRIMONIAL VIEWS**

TOKYO, Dec. 14.—As Japan proceeds to adopt western customs, the old usage of having parents choose husbands or brides for their offspring is gradually falling into disuse. In many cases the young people prefer to depend on the dictates of their hearts rather than upon the brains of their parents.

The activities of marriage agencies are also becoming quite common, as has been shown by a police investigation made recently in Tokyo, when the affairs of thirty of these bureaus of Cupid were looked into.

**JAPS DEFY LEAGUE IN CONTROVERSY ON GERMAN CABLE LINE**

GENEVA, Dec. 14.—Disarmament today was the topic before the league of nations assembly.

The assembly heard the report of the sixth commission on preliminary plans for world-wide reduction of naval and military strength.

The Japanese delegation in a statement declared Japan will not yield the former German cable touching the island of Yap, over which Japan has a mandate.

"America might reduce her naval program and use the money to build her own cables," the Japanese press was quoted as saying.

The statement added that the international conference at Washington was deadlocked over the problem of disposing of former German cables.

**TYPE OF JAP TELLS BRAND OF BOOTLEG**

CHICAGO, Dec. 14.—Dr. W. P. Goodsmith, who has been medical director at Washington Home here for the last twenty-five years and who has treated thousands of cases of intoxication in all stages, gave some additional light on the effects of prohibition. He says that when a drunken man staggers from side to side he has been drinking real whiskey, but when he spins like a top he has been filling up on moonshine.

"In the old days," he said, "we treated 80 to 100 patients each month. Now we have only eight or ten. The decrease of drunkenness among women is even greater than among men. The doctor does not say what effect the juice of the wood alcohol tree has.

**BROTHERS, SISTERS IN TRIPLE WEDDING**

WOODLAND, Yolo Co., Dec. 14.—The golden wedding anniversary of Mr. and Mrs. Aaron Bobb of this city, which is being observed by the aged couple today, recalls an instance of the marriage of three sisters to three brothers, all of whom have observed their golden weddings.

Mr. and Mrs. R. P. Robb of Orangeville, Illinois, brother and sister of the Woodland couple, respectively, celebrated their golden wedding anniversary five years ago, and Mr. and Mrs. A. J. Bobb of Carthage, likewise related to the Woodland residents, observed their golden wedding four years ago.

All members of the sextet are hale and hearty. Bobb states that his father, who resides in the East, now is 99 years old, and that his wife died just a few days before they were to observe their diamond wedding anniversary.

**CHARRED BODY CLUE IN MURDER MYSTERY**

GILROY, Calif., Dec. 14.—The battered and charred body of a man believed to have been A. Helmericks, of Inglewood, was found today lying in a bed of coals in a cattle corral adjoining the Southern Pacific tracks in the outskirts of Gilroy.

The man is believed to have been murdered by tramps who sought to hide their crime by destroying the body with fire.

**AUTOS SHOW INCREASE.**

OTTAWA, Ontario, Dec. 14.—It is reported that the automobile registrations in Canada in 1919 aggregated 341,396—practically five times the number in 1914. Ontario showed the greatest actual increase, 113,080 more registrations, while Prince Edward Island made the largest percentage increase in registrations (3,019 per cent).

**HOUSE OF LORDS PASSES IRISH HOME RULE**

LONDON, Dec. 14.—The Irish home rule bill passed its third reading in the house of lords today. As alterations were made by the peers, the measure now goes back to commons, which must accept the changes if the bill is to go through.

**GOVERNMENT PREPARES FOR NEW SINN FEIN RAIDS**

LONDON, Dec. 14.—With Cork under the complete control of the military, the government today prepared to meet attacks elsewhere in Ireland. There were indications that the members of the Irish republican army were ready for assaults on crown forces in the counties bordering on Ulster.

In the fighting yesterday, the Irish office reported one policeman was killed. Seven police and soldiers were wounded. Three Sinn Feiners were killed. An unknown number were wounded and sixteen captured.

Cork, according to dispatches, had become a "staggering wilderness." Comparisons were made with the war ruins in France, the piles of masonry and steel being spread out over five blocks in an apparently inextricable mass.

Reports today said incendiaries, after firing the buildings, raced through the brightly illuminated streets, shooting rifles and revolvers. There was considerable looting, these reports said.

**ENGLISH FIRM BUYS PRUNES FOR EXPORT**

SAN JOSE, Dec. 14.—A. I. Wilson, prominent director of the firm of Alexander Crichton & Co., London, England, who, with C. E. Maples, his attorney, has been passing the last few days in San Jose, has completed arrangements to handle the crops of the California Prune and Apricot association. His firm is the largest importer of California dried fruit, as well as canned, in Europe. In discussing the outlook for the coming year Wilson declared that he believes canned and dried fruits must be reduced greatly before exportation can be put on a satisfactory basis.

**SAN JOSE NORMAL TO ASK FOR \$411,000**

SAN JOSE, Dec. 14.—Buildings costing \$411,000 will be constructed by the San Jose state normal school if appropriations to be asked are granted by the state legislature. The building programme includes a new \$180,000 structure for house the home economics and manual arts departments, a girls' dormitory to be erected at a cost of \$150,000, the expenditure of \$45,000 to be used in the home economics and manual arts department, as well as equipment at the cafeteria, repairs and additions to the present property and additional equipment for officers and classrooms.

**HOG PRICES IN NEW SLUMP ON EXCHANGES**

CHICAGO, Dec. 14.—Hogs slumped generally throughout the Middle West today as farmers sold heavily. A feeling that corn would go to low prices influenced heavy shipments. Prices were off generally from 25 to 50 cents and new lows were established in several places as compared with four years ago.

**JURY CHARGES CALIFORNIA LAND FRAUD**  
**Solons Charge Housing Trust In Giant Gouging Conspiracy**  
**NELSON GETS DIST. ATTORNEY POST**

**PROSECUTION DEPUTY FOR OF LEADERS NOW PLAN WEST WINS OFFICE**

Congressional Committee Urges Extreme Measures In Report

WASHINGTON, Dec. 14.—Whole-sale prosecution of employers and labor leaders guilty of conspiring to increase prices in the building trades, and government supervision of the coal industry were urged upon congress today.

The recommendations were made in a report to the senate by Senator Calder, New York, chairman of the special committee on reconstruction and production, which has been investigating the housing situation for the past several months.

The housing shortage is menacing industrial growth, public health and morals, the report said. These recommendations for its correction are made:

- 1.—Amendment of the transportation act to check issuance of "export" orders by the interstate commerce commission on the ground that priority orders so issued bring irregularities in delivery of building materials, cause building stagnation and open opportunities for profiteering.
- 2.—Abolition of the cost-plus contract system and establishment by states and cities of trade schools for building apprentices.
- 3.—Creation of a federal bureau to serve as a clearing house for the best knowledge and practices in construction work.
- 4.—Revision of the present tax system to encourage investment in homes and construction, and to grant for a limited period tax exemption to real estate mortgages.
- 5.—Repealing of the home loan bank bill and consolidation of all federal thrift activities under the postal savings branch of the post-office department.

Hit Housing Grafters.

The committee has this to say on the New York building expose and its recommendations for prosecutions:

"The misdirection and exploitation of some groups of organized labor, through grafting leadership, has been revealed in New York City and is reported in some of the other cities. This has spread to combinations of employers who, working together, with such grafting labor leaders, have combined to force unduly high prices. These conditions are called to the attention of the department of justice and that department is urged to prosecute the wrongdoers whenever they are found to have violated the federal statutes."

Senator Calder announced that the committee is preparing legislation to embody in its recommendations; that these measures will soon be introduced in the senate and early favorable action urged.

The committee asks authority of the senate to continue its investigations—stating that unless the federal government continues to stimulate co-operation of those engaged in labor, transportation, finance and fuel production with those engaged in general construction that the growing scarcity of homes may eventually force upon the government an undesirable participation in the housing business."

Dealing with the coal situation, Senator Kenyon of Iowa, a member of the committee, said that "if this continuous plundering of the American people is to go on, I shall favor taking over the mines and it could be done, in my judgment, constitutionally."

The committee's report states that as a "last resort it may be necessary to enact some form of federal licensing" of the coal industry. The committee at the present time made the following recommendations governing the coal industry and its relation to the housing situation:

That all coal operators, wholesale,

**Brolaski Witness In Own Behalf In S. F. Liquor Trial**

SAN FRANCISCO, Dec. 14.—Circumstances surrounding the death of Loren A. Handley, former state prohibition director who was killed in an automobile wreck near Lodi, today entered the trial of Harry Brolaski and two others for alleged violation of prohibition laws.

Brolaski, testifying in his own behalf, denied any unusual interest in Handley's death and, incidentally, denied all of the numerous charges which have been made against him.

Under questioning, Brolaski admitted that he probably was the last man to see Handley alive in San Francisco.

**GROVES WILLING TO QUIT AS DEMOCRAT SECRETARY, REPORT**

LOS ANGELES, Dec. 14.—F. Ray Groves, state secretary of the Democratic central committee, is to resign as a result of the recent indictment charging him with conspiracy to violate prohibition laws, it was reported today in political circles here.

Groves, it became known, departed last night for San Francisco to confer with Democratic State Chairman Ewing. It is understood he will ask Ewing to approve the appointment of Pierson Hall, now first assistant state secretary, as acting state secretary in his stead.

The action of Groves is said to have been inspired by a desire to save his party any possible embarrassment which may grow out of the charges against him.

**FRESNO DISCUSSES SCHOOL BOND ISSUE**

FRESNO, Dec. 14.—Urging enlargement of the present crowded school buildings, the Board of Education gave consideration to a proposal to call a bond issue for \$1,000,000 in the school district. It is believed that at least sixty additional rooms will be needed for the enlargement. It was proposed to use half of the sum for equipping the new high school.

**GAMBLERS AT TIA JUANA UNDER BAN**

SAN DIEGO, Dec. 14.—Gambling has been suspended at Tia Juana according to telephone reports received here today.

The gambling games, it was said, have been closed on an order from Mexico City, believed to have been issued by President Obregon.

The order applies to all games of chance, it is said, and resulted in the cessation of all gambling in the town, as well as in the casino, near the race track.

The order is said not to apply to betting at the track.

**'MOONSHINE' IS FOUND IN RAID ON HOTEL**

YUBA CITY, Dec. 14.—Warrants for the arrest of Earl Fisher, owner of the Hotel Sutter in this city; charging them with violation of the prohibition law, were issued by U. S. Commissioner J. E. Ebert of Marysville yesterday afternoon, the complaints being sworn to by Sheriff Ben Manfred of Sutter county, after the arrest of Ooda Singh on a charge of drunkenness who confessed that he had purchased the liquor from the hotel.

On investigating the case Sheriff Manfred and his deputies discovered "moonshine" corn whiskey behind the bar.

**POLICE DEFIED BY MAN WITH HAIRBRUSH**

SACRAMENTO, Dec. 14.—Armed with nothing more dangerous than a hairbrush, Thomas H. Flaherty barricaded the door of a room at a local hotel and for two hours defied the efforts of a squad of policemen and detectives to arrest him on charges of disturbing the peace, made by his wife. When the officers broke into the room Flaherty was found asleep with a hairbrush in one hand and a bottle of Jackass brandy in the other.

**CHICO C. C. APPROVES NEW IRRIGATION CANAL**

CHICO, Dec. 14.—The plan of the State Board of Engineering to survey the right of way from the Iron Canyon dam down the east side of the Sacramento valley to Chico was approved yesterday by the Chamber of Commerce, through its board of directors.

**OWNERS OF MERCED, MADERA CO. TRACT IN GOVERNMENT NET**

CHICAGO, Dec. 14.—Federal grand jury indictments against sixteen officials of the Daniel Hayes company of Idaho, charging conspiracy to use the mails to defraud, were announced here today.

Federal officers declared officers of the company sold from \$3,000,000 to \$5,000,000 worth of California land which they are alleged to have misrepresented.

The indictment declared the company owns 150,000 acres of land in Merced and Madera counties which, it is alleged, officials represented as capable of growing potatoes and other vegetables, "when it was not fitted for growing said things."

The misrepresentations, the indictments charge, were made through advertisements.

Two hundred dollars an acre was asked.

**MURDER VICTIM WEALTHY L. A. WOMAN, BELIEF**

LOS ANGELES, Dec. 14.—The body of the woman found murdered in the Edendale Hills was positively identified today as that of Mrs. Fay Sudow, 42, a wealthy Los Angeles business woman.

Identification was established by means of a check made by Dr. J. E. Lange, showing dental work he had done for her.

LOS ANGELES, Dec. 14.—With the identity of the woman whose nude and mutilated body was found late Sunday in an eucalyptus grove in the hills of Edendale practically established, police today telegraphed to authorities of a city not far from here to place under surveillance a suspect whose name has been linked with that of the woman.

The victim, according to information in the hands of the police, was Mrs. Fay Sudow, 42, owner of much real estate in Los Angeles, who mysteriously vanished last Tuesday.

Jeff Sudow, husband of Mrs. Sudow, viewed the body and asserted he believed it was that of his wife. Search for her had been instituted after she failed to appear Thursday to testify in a suit involving \$150,000.

Dentist Identifies Work

A dentist who performed some work for Mrs. Sudow partly identified the dental work on the teeth of the victim with that which he had done on Mrs. Sudow's teeth.

Detectives declare they have information indicating Mrs. Sudow had told friends she feared death at the hands of a man, whose name and whereabouts are known to authorities, and that she had warned business associates and friends recently that if anything befell her she desired an immediate and thorough investigation.

An automobile purchased by Mrs. Sudow and said to have been last seen in possession of the man under suspicion has disappeared, detectives said.

**PLAN CAL. HEARING ON TARIFF QUESTION**

SACRAMENTO, Dec. 14.—What appears to be the first ray of hope for relief in the situation of low tariff, high freight rates and low prices, comes in the announcement of the Federal Tariff commission that a hearing on the tariff claims of the producers of this state will be held in California sometime late in February.

Citrus fruit growers and bean raisers, as well as owners of almond, olive and walnut orchards, together with rice men, have been clamoring for a tariff that would give their industries protection. Most strongly has this been felt by the lemon growers and the olive producers.

The announcement came yesterday to George H. Hecke, director of the State Department of Agriculture, who will in every way possible encourage the hearing here.

As a result of the telegrams sent from the Fresno convention of farmers and fruit growers last month, announcement has been made by the Interstate Commerce commission that the diversion order has been suspended until about the first of April.

Strong protest was made against this ruling, which permitted but three diversions for a car, after which the local freight rate from the point of the fourth diversion to the final destination, would be permitted. This had the effect of preventing the close following of the markets and, according to W. D. Bennett, sales manager of the Pacific Fruit Growers' exchange, would have worked a great hardship on the fruit interests of the state.

There has been no relief, however, from the increase in freight rates. On some fruits shipped East, the freight rates have actually been more than the price received for the produce.

The markets are holding up but fairly, and the keen competition allowed from the Mediterranean has caused heavy losses among the growers of some fruits this season.

**WIFE OF JURIST IN SIERRA COUNTY DEAD**

DOWNIEVILLE, Dec. 14.—Mrs. Anna Nielson Smith, wife of Judge Stanley A. Smith of Sierra county, died at the home of her daughter, Mrs. J. S. Engle in Oakland. Mrs. Smith had lived here for many years, her husband having been on the supreme court bench for thirty years.

**PEAR TREE PRODUCES FRUIT TWICE IN YEAR**

CORNING, Dec. 14.—L. H. Etter, Corning, Cal., just brought into the Chamber of Commerce a branch containing ten pears, which is the second crop taken from this tree. The one crop taken from the tree last year, blossomed for the second time this year, but the fruit did not mature.

The Chamber of Commerce also received some ponderosa lemons 1 1/2 inches, grapefruit 15 inches and oranges 12 1/2 inches in circumference, from other Corning fruit growers.

It seemed established this afternoon, according to Los Angeles dispatches, that Arthur F. Tyler, 27, arrested here Saturday morning, was exonerated from any connection with the murder of Mrs. Fay Sudow in Los Angeles. Tyler was taken to Los Angeles late yesterday for further investigation, after having been questioned here by both Los Angeles and Santa Ana officers.

## HARDING GREET'S 'BEST MINDS' AT MARION

MARION, Ohio, Dec. 14.—Practical politics crowded the League of Nations into the background today as President-elect Harding turned his attention to a list of political callers.

Harding was also considering seriously the proposal of Colonel Geo. Harvey for an association of nations in which members would be pledged to abstain from offensive warfare without a referendum of their peoples.

Bishop William F. Anderson of Cincinnati, conferred briefly with Harding regarding the League of Nations. He suggested reservations governing Article X, Shantung and proposed that membership be open to all nations.

The fact that the Harvey plan was sprung immediately after Elihu Root, a league friend, had talked to Harding, led some to view it as a step to counteract the effect of the visits of Hughes, Hoover and Root, three league advocates.

Ex-President William H. Taft will be the next chief justice of the supreme court, in the opinion of Harding's closest advisers today.

Chief Justice White is understood to be planning to retire from the bench shortly after the new administration comes in. The second vacancy under the Harding administration will be filled by ex-Senator George Sutherland of Utah, it is believed.

## SPREADING OF WATER BRINGS FINE RESULTS

SAN BERNARDINO, Dec. 14.—That the work of water conservation on the Santa Ana river debris cone is producing wonderful results was declared yesterday by Francis Cuttle, head of the tri-counties reforestation committee, to the Board of Supervisors here yesterday. Cuttle was making a report on the expenditures on the project and outlined work to be done by this county. An appropriation of \$1250 from the \$2500 budget item provided for water to aid in the work of the committee. During the past two years approximately \$30,000 has been expended, the bulk of it coming from Riverside interests. Redlands city has contributed \$800.

According to Cuttle's figures 160 inches of water per acre is sunk into the artesian basin and the result has been that at the opening of the irrigation season last summer the water level was higher than it had ever been, and following several years of less than normal rainfall. Cuttle exhibited photographs to demonstrate the character of dams that have been built to spread the flood water from the Santa Ana river. It is possible to measure the water that flows over these dams and there figure how much water is sunk into the artesian basin over any number of acres.

**RAISE THE PRICES!**  
Frank C. Spaulding of San Diego tells a story of a Missouri editor who was asked by an advertiser concerning the out-of-town circulation of the paper.

"Where does it go?" asked the advertiser.

"Well," answered the editor, without hesitation, "it goes to Kansas City, to Chicago, to St. Louis, to Detroit, and sometimes I think it's going to hell."—San Diego Union.

## SCIENTIST CONTENTS WEATHER CONDITIONS GUIDE FOR POLITICS

BERLIN, Dec. 14.—Dr. Georg Lomer, German scientist, has made the discovery that there is a direct connection between weather conditions and political happenings.

Lomer has spent a portion of his scientific life to proving this theory and gives tables and figures to, he says, establish his contention. Writing in the "Review of Progress in Science and Technique," he declares the human being may believe himself to be a creature with spiritual independence, but in reality he is in a "net of psychocomic powers" and is sort of a pawn in the "chess game of Providence."

All of which leads up to his contention that weather and politics are all wrapped up together—in other words, that they aren't the results of human manipulation, but of physical and psychic forces.

"Dirty weather in the Channel," as the English say, may portray a revolution, and so on.

Dr. Lomer sets forth that sultry political happenings attend sultry weather and that stormy political events accompany storm signs on the barometer.

## ROTARY CLUB HOLDS ITS MEETING TODAY

With a dairy luncheon before them and a thoroughbred calf in the middle of the room as a special guest, the members of the Rotary Club listened at noon today to an address by H. E. Wahlberg, county farm advisor, who pointed out the scope and character of the work in which he is engaged.

Dr. Caroline Coffin, who is speaking in Southern California in the interests of the State Dairy Council, cited statistics to show that out of 21,000,000 school children in the United States, 16,000,000 are actually normal physically because they do not consume sufficient milk and dairy products.

A message was received from John McFadden, who is a patient at the Community hospital, stating that he was with the members in spirit and hoped to be able to attend next week's meeting.

Following a report from the boys' work committee, the club voted unanimously to provide a Christmas tree and other Christmas cheer for the boys and girls in the juvenile home on Grand avenue.

## BALLS FERRY MILL, LANDMARK, IS GONE

BALLS FERRY, Dec. 14.—The old flour mill, a landmark in this part of Shasta county, was torn down this week, the material being taken to Haystack Valley for building purposes. The mill had not been operated for twenty years, but in early days it was a source of supply for flour being freighted by ox teams to Idaho and Eastern Oregon.

**Something New**  
She is a charming young woman, a member of the faculty of one of the city high schools.

Tripping blithely into a department store one evening after school, she approached one of the floormen and inquired: "Could you tell me where I could find nighting out gowns?"

The man directed her, maintaining a sober countenance.

The ruby, weight for weight, is more valuable than the diamond.

## HOUSING TRUST PROSECUTION IS URGED

(Continued from page one)

Jobbers and retailers will be compelled by statute to file at regular and frequent periods with some federal agency reports on the total tonnage produced or handled, the size and quality, the amount of tonnage contracted for spot sale, to whom, to contract with the prices made or received under such contracts or sales, and producers and distributors to make regular reports sufficient to determine their costs and profits and the corporate inter-relations or the communities of interest between companies producing and distributing coal.

**Bleed Home Owners.**  
This information is to be held for possible use by the department of justice.

Coal profiteering has continued unchecked by the department of justice and is a national disgrace, the report stated.

Coal speculation has been permitted to monopolize the transportation facilities of the country, retarding construction and increasing the basic cost of manufacture and distribution in general. It has bled the home owners, public utilities and the industries. Private interests are actually unable to prevent the present deplorable situation, and it is the duty of the government to take such steps as it may to remedy the evil.

## VALLEY ASSOCIATION IS TO BE REVIVED

EL CENTRO, Dec. 14.—A committee of bankers from the Imperial Valley Bankers' association has in charge the plans for reviving the Imperial Valley Growers' association, which is practically dead as the result of suits filed against it and the result of suits filed against it and the result of suits filed against it.

The banks are being given a free hand and it is possible that a receivership may be approved.

The association is in deep financial troubles because of the slump in the cotton market and failure to collect bale tax from the growers and gins after agreements had been signed.

Several thousand Mexican laborers were imported and it is said the action of the company has prevented a labor shortage and saved the growers money by plenty of labor and lower picking prices. Short staple is now being picked at 1 1/2 cents a pound and Pima at 4 cents, both prices being considerably below the prices at the first of the season.

The resignations of the former force were accepted and H. A. Hastian is the new manager; Clark Adair, secretary, and T. D. McCall, treasurer.

Gertrude had been to New York, and upon being asked what she had seen there she replied, "Lots o' things."

"But what did you see especially?"

"Lots of high buildings."

"What else?"

"The Goddess of Liberty!"

"The Goddess of Liberty? Well! What did you think of her?"

"Nothin'." She just looked like a big lady holding up an ice cream saucer."—Houston Post.

## WATER USED TO PUT OUT FIRE EQUITABLE CHARGE AGAINST CITY

SACRAMENTO, Dec. 14.—The service of water for the extinguishment of fires and for sewer flushing and other municipal uses is for the benefit of the community as a whole, is the view of the Railroad commission as expressed in its letter to Governor Stephens transmitting the board's annual report for the year ending June 30, 1920.

"Therefore," the letter continues, "the expense of this service is most equitably spread when borne by the taxpayers."

Reference is made in the letter to a ruling by the commission along the line, which was contested by the cities of Berkeley, Oakland, Alameda, Richmond, San Leandro and Emeryville. Carried to the State Supreme court, the commission was sustained. The commission continues:

"The proper charges for water used by municipalities for street sprinkling, sewer flushing and fire fighting purposes has always been the subject of serious controversy. Admittedly, it is difficult to equitably distribute the expense of maintaining and operating a system in proportion to the benefits derived by each class of consumers and an exact allocation of the cost to the company of rendering a service such as is rendered to the cities is impossible. The amount of water used is not a proper measure because the demand for fire purposes is wholly unexpected and the company must stand to deliver a large quantity of water within a short period at any point where the fire may occur. The utility is rendering a valuable service to the municipality and its taxpayers which requires an investment and operating expense largely in excess of what would be required if only domestic and industrial consumers were served."

**Valley Cotton Men Hit by Price Drop**  
REDLANDS, Dec. 14.—With short staple cotton selling at from 12 1/2 to 13 1/2 cents per pound and cotton seed at \$7 per ton, many of the ranchers in the Palo Verde valley face ruin unless government or other aid is extended to them was the statement of G. A. Ritter, who lives near Ripley, some twelve miles from Blythe, and is now in Redlands. Prices are so low that renters, who did not secure their land on favorable terms are in many cases abandoning their crops and leaving the country because it would not pay to harvest them under present conditions. Over 50 per cent of the cotton is still in the fields and much of it will stay there unless there is a more favorable market.

Due to the fact that the branch line into the valley is not yet completed to all sections, cost of transportation to market is higher than in almost any other cotton-producing section of the United States, and this is a great factor in producing the unsatisfactory conditions that prevail, according to Ritter.

## VALLEY COTTON MEN HIT BY PRICE DROP

REDLANDS, Dec. 14.—With short staple cotton selling at from 12 1/2 to 13 1/2 cents per pound and cotton seed at \$7 per ton, many of the ranchers in the Palo Verde valley face ruin unless government or other aid is extended to them was the statement of G. A. Ritter, who lives near Ripley, some twelve miles from Blythe, and is now in Redlands. Prices are so low that renters, who did not secure their land on favorable terms are in many cases abandoning their crops and leaving the country because it would not pay to harvest them under present conditions. Over 50 per cent of the cotton is still in the fields and much of it will stay there unless there is a more favorable market.

Due to the fact that the branch line into the valley is not yet completed to all sections, cost of transportation to market is higher than in almost any other cotton-producing section of the United States, and this is a great factor in producing the unsatisfactory conditions that prevail, according to Ritter.

**LARGE SHOW OUTPUT.**  
MONTREAL, Quebec, Dec. 14.—In the Montreal district there are 53 factories producing 46 per cent of all the leather footwear made in Canada. Ontario with the same number of factories makes 31 per cent and Quebec city and vicinity with 32 factories makes 18 per cent; 16 factories in the Maritime provinces make 5 per cent.

**176 PERSONS SEEK  
FOUR DEPUTYSHIPS**  
TONAPAH, Nev., Dec. 14.—One hundred and seventeen applications have been filed with Sheriff-elect W. G. Thomas for four positions in his office. The list of applicants include several women. It is understood two of the four positions have been already filled.

Other newly-elected county officers have also been swamped by applicants for deputyships, and it is evident that many of the residents of Tonapah are confident of their ability to hold down an office job.

**2267 MEMBERS.**  
A total annual membership of 2267 was announced at the annual meeting of the Fullerton district of the Red Cross last night. Five of the officers who during the past year were re-elected at the meeting last night. They were Miss Anita Shephardson, Miss Suzanne Dean, Waldo O'Kelly, Thomas Eabington and Reverend William Perry. The Fullerton district includes most of the northern part of Orange county.

**CHINESE PLANNING  
NEW STEAMSHIP LINE**  
SEATTLE, Dec. 14.—Establishment of a new steamship line to operate between Pacific points and the Orient and formation of an importing and exporting company, was being planned by delegates to the annual convention of the Hip Sing Chinese tong, in session here, Look Hong, secretary, announced today. Final plans will probably be made public tomorrow, he said. Details of a campaign throughout the country to relieve famine sufferers in Northern China were discussed at today's session of the convention, it was announced.

Double S. & H. Green Trading Stamps tomorrow (Wednesday) until 2:30, at Leipsica.

## LOCAL REALTORS HEAR NEW HEAD IN ADDRESS

Fred E. Reed, state president of the California Real Estate association, was the principal speaker at the banquet of the Santa Ana Realty board in the New Rossmore hotel at noon today.

Linn Shaw, president of the Santa Ana board, presided and J. C. Wallace acted as secretary.

Among the important features mentioned by Reed in his talk was the series of C. E. Wantland, a former newspaper man of Los Angeles, to act as field representative for Southern California. Wantland is also to have charge of all publicity work for the association.

J. G. Munholland of Long Beach spoke briefly on the value of the use of the word realtor after a man's name as distinguishing his profession. The object of the future work of the association is to develop the idea that the real estate business is a profession.

It was unanimously voted to instruct the secretary to write a warrant for \$10 on the Santa Ana Real Estate board for the purpose of making the real estate business a member of the state association.

**Quota Signed Up.**  
Following the vote to make the local board a member of the association it was decided that individual memberships should also be taken out. Thirty members was the quota and solicitors passed slips and secured up almost the entire quota at the banquet.

Those present were:

J. Edmund Snow, K. Van Slyck, E. E. Jahraus, Everett A. White, M. M. Hearn, James C. Metzgar, D. N. Kelly, Linn L. Shaw, C. E. Wantland, J. G. Munholland, N. J. Warner, J. E. Liebig, Stanley C. Goode, A. J. Lacey, A. J. Crookshank, Wm. H. Fulcher, Fred B. Stover, Freeman N. Bloodgood, Roy W. Peacock, Earl J. Easton, J. Wiley Harris, Roy W. Barker, Wayne Goble, Perry Maynard, F. C. Mock, J. E. Livesey, R. W. Lantz, R. C. Mize, W. Frank Harris, F. C. Pope, H. J. Selway, J. C. Wallace, Fred E. Reed.

**Big Things Doing**  
"The state association," said Reed today, "has a lot of big things that it is working upon for the good of the state and the communities in which the members of the association live. We are working along the line of service. That is, we believe that the association is in a position to be of great service in protecting the public from crooked dealers and crooked real estate schemes, and it is our purpose to make our efforts felt in giving that protection."

"At the state meeting in Los Angeles we put through a motion endorsing legislation under which the state real estate commissioner, R. L. Riley, must pass on all colonization schemes before a colonization tract can be put on the market. If the law sought by us is secured swindling land schemes can be held in check."

"Our association is fighting and will continue to fight for the interests of the taxpayers. Our work along this line will be commended by the public as it becomes understood, and our success depends upon how seriously the individual members of the association take the duties placed upon them by membership in the association."

**Advertise Real Estate**  
"We believe in advertising real estate as real estate. That is, we believe in keeping up a general interest in real estate, and the individual propositions will fall into line for individual attention. Our association is growing rapidly. We are getting ready to put on a drive for 25,000 members, and we are counting on the Santa Ana Realty board to increase its membership considerably."

"We are urging everywhere a campaign for housing. There is only one possible solution for the housing problem, and that is to build more houses."

"Our association is taking up with the railroads now a plan under which we hope to secure the re-establishment of colonization rates on the railroads. That will help in bringing Easterners to this state."

**6 PERSONS SEEK  
FOUR DEPUTYSHIPS**  
TONAPAH, Nev., Dec. 14.—One hundred and seventeen applications have been filed with Sheriff-elect W. G. Thomas for four positions in his office. The list of applicants include several women. It is understood two of the four positions have been already filled.

Other newly-elected county officers have also been swamped by applicants for deputyships, and it is evident that many of the residents of Tonapah are confident of their ability to hold down an office job.

**2267 MEMBERS.**  
A total annual membership of 2267 was announced at the annual meeting of the Fullerton district of the Red Cross last night. Five of the officers who during the past year were re-elected at the meeting last night. They were Miss Anita Shephardson, Miss Suzanne Dean, Waldo O'Kelly, Thomas Eabington and Reverend William Perry. The Fullerton district includes most of the northern part of Orange county.

**CHINESE PLANNING  
NEW STEAMSHIP LINE**  
SEATTLE, Dec. 14.—Establishment of a new steamship line to operate between Pacific points and the Orient and formation of an importing and exporting company, was being planned by delegates to the annual convention of the Hip Sing Chinese tong, in session here, Look Hong, secretary, announced today. Final plans will probably be made public tomorrow, he said. Details of a campaign throughout the country to relieve famine sufferers in Northern China were discussed at today's session of the convention, it was announced.

Double S. & H. Green Trading Stamps tomorrow (Wednesday) until 2:30, at Leipsica.

## BRENNAN COURTING HOSPITAL VISIT IN BOUT WITH DEMPSEY

NEW YORK, Dec. 14.—Even if a beating is thrown in with it, \$35,000 is not so bad for about seven to ten minutes work.

Therefore, the glove clan that gathered here today was not questioning the sanity of Bill Brennan.

Brennan is scheduled to go through fifteen rounds with Dempsey at Madison Square garden tonight but the experts predicted that it would take just about three rounds for him to go through the floor or the ropes.

Despite the hunch that it will not be more than a short workout for Dempsey, at least 12,000 fans were booked to pay \$200,000 to see the Chicago heavy flirt the second time with a catastrophe.

In compliance with the state boxing laws, both were to weigh in this afternoon at 2 o'clock.

Word from the training quarters said that the champion would step in the ring tonight around 185 pounds while Brennan would be around 195.

## CHIROPRACTIC CASE JURY DELIBERATES

At an early hour this afternoon the jury trying Dr. C. T. Cleland, of Santa Ana, a chiropractic, in the superior court of Judge R. Y. Williams on a charge of having practiced a system of treating the sick and afflicted without a license from the State Board of Medical examiners, was still out. The case went to the jury just before noon today.

The complaint against Cleland was filed on June 28, 1920, but the trial was postponed by agreement, pending the outcome of the recent chiropractic bill which appeared among the initiative measures on the ballot on November 2.

Cleland was prosecuted by Special prosecutor H. J. Castellow, attorney for the State Medical board, and Deputy District Attorney A. P. Nelson. He was defended by Attorneys Clyde Bishop and S. M. Reinhaus, of Santa Ana, and M. C. Spaulding, of Los Angeles.

Castellow and Nelson maintained that Cleland had violated the law by giving chiropractic treatments without having a state license to practice, and called W. R. Harvey and Rachel Harvey, his wife, and Cora Borden and A. W. Wood to the stand to testify that they had received such treatments. Cleland's card was introduced in evidence in an effort to show that he posed as a chiropractic giving such treatments to the sick and afflicted.

The attorneys for the defense claimed that it had never been established that Cleland practiced any system of treating the sick and afflicted; and that the possession of the card or the use of the term "Dr." did not prove anything in the present case.

In his closing address to the jury, Attorney Reinhaus scored what he called the "medical trust" which insisted that a man be examined as to his knowledge of the science of medicine and his fitness and competence to practise it, and stated that a free citizen of this country had a right to attend to be cured in any way he pleased.

Attorney Clyde Bishop invoked the constitution of the United States which, he said, guaranteed freedom and personal liberty, and scored the medical board for attempting to curtail these rights. He compared Cleland to Christ, and stated that just as the Hebrews stoned and persecuted Christ, so the medical board was "attempting to persecute Cleland."

He stated that he had no doubt but that the medical board, if it had the power, would erect a cross and order Cleland crucified.

The attorneys for the prosecution, in addressing the jury, stated that the health of the citizens of the county is considered a public question, for the ill-health and disease of one is likely to spread to others. They said the state and the citizens recognized this by boards of public health commissioners, and by insisting, by a system of examination and license, that those giving aid and treating the sick and afflicted give evidence that they know what they are doing, that they are versed in the science of the human body and in pathology, and that they do not intend to trade on the credibility of ignorance. They claimed that Cleland had wilfully and knowingly violated this law, and asked conviction.

The jury is composed of the following: H. A. Dickel, Esther F. Chapman, A. S. Adams, A. L. Cotant, Hansler Larter, C. B. Campbell, Mary E. Hamaker, Edwin McFadden, J. Roy Smith, B. T. Beale, Hattie L. Dunn and Donald J. Dodge.

**DEMANDS PROOF.**  
"Mr. Gloom," began Hon. Thomas Rott, "I have been earnestly solicited by many friends to—"

"Name them!" thundered J. Fuller Gloom.—Kansas City Star.

## Marriage Licenses

**IN RIVERSIDE**  
 Joseph F. Vollmer, 41, and Jessie E. Fine, 35, both of Orange.

## Births

**MUNGER**—To Mr. and Mrs. Ross Munger, 832 S. Sycamore, December 14, 1920, at the Community Hospital, an 8-pound son.

## Deaths

**COLE**—At her residence, 1410 Arapahoe street, Los Angeles, Dec. 14, 1920, Mrs. Hattie E. Cole, aged 75 years. She was the mother of Misses Eva and Mable Cole of Los Angeles and of Ed. Cole of San Francisco.  
 The family were pioneer residents of Santa Ana and were well known here. They moved to Los Angeles several years ago. Mrs. Cole's husband, Edwin Cole, passed away here a number of years ago.  
 The remains are being brought to Santa Ana by Mills and Winbiger, who will later announce time of services.

**CARD OF THANKS**  
 We wish to thank our many friends for their kindness to us during our recent sorrow and for the beautiful floral offerings.  
 MRS. W. D. MCCOY,  
 MR. and MRS. CHAS. E. WALKER,  
 K. E. SHARROCK.

## New York Stock Market

**NEW YORK, Dec. 14**—Stocks opened slightly lower. United States Steel was one of the few issues holding at its closing price, 78 3/8. Chandler was off 3/8 at 78; General Motors 13 5/8, off 1/8; Mexican Petroleum 121 1/2, up 1/2; Baldwin 35 1/2, off 1/4; Texas Pacific Electric 118 1/2, unchanged; Texas Company 41 1/4, off 1/8; Northern Pacific 49 1/4, up 1/2; American Steel Sugar 49 1/2, off 1/2; Studebaker 40 5/8, off 3/8; New Haven 16 1/4, up 1/8; Norfolk and Western 33 3/8, off 1/8; Texas Pacific 118 1/2, up 3/4; Anaconda 37 1/4, off 1/4; Pan American 75 1/4, off 1/4; American Woolen 62 3/8, up 3/8; Southern Railway 35 1/4, up 1/4; Reading 80 3/4, off 1/4.

## Today's Citrus Market

**NEW YORK, Dec. 14**—Eleven cars oranges and two cars lemons sold. Orange market 15 cents lower in spots. Averages ranged from \$2.08 to \$5.20. Highest price, 25 boxes Big Tree, \$7.00. Lemon market unchanged. Averages ranged from \$2.54 to \$3.35. Weather, 8 a. m., rain. Temperature 54.

**On Tuesday, Dec. 14th, at 7:30 p. m., Santa Ana Lodge, No. 241, will confer the Third Degree on the following Brethren cordially invited.**  
**ROY S. HORTON, Master.**

## BIG OPEN-AIR RALLY PLANNED BY CHAMBER

**IMPERIAL, Dec. 14**—The second open-air rally of the Imperial chamber of commerce will be held at the ranch of Samuel E. Robinson, just east of the Alamo, Thursday. Visitors are asked to bring lunch for themselves and one or two others and their cups and spoons.  
 The first rally last month at the home of Lewis Kirkpatrick brought out more than 200 persons and as the Robinson ranch is more centrally located, it is expected that the number will be larger. A program will be given in connection with the meeting. It is now in the course of preparation.

## SKELETON LEADS TO NEW MURDER MYSTERY

**LOS ANGELES, Dec. 14**—What the police believe may develop into a murder mystery was being investigated today following the finding by C. N. Bingham of a human skeleton on the Universal ranch. Detectives were to make an inquiry today.

**FORMER TREASURER BURIED**  
**SAN DIEGO, Dec. 14**—Funeral services for Nathaniel Kennedy, 78 years old and former city treasurer of San Diego, who died at Volcano, Amador county, was held here today.

## City and County

**W. L. McCleary** was elected worshipful master of Santa Ana Lodge No. 241 of the Free and Accepted Masons at the annual election of officers of that organization. McCleary resigned, however, as he expects to leave for Honolulu in January. Other officers elected were Stanley M. Reinhaus, master; Ray Roepeke, senior warden; Charles F. Mitchell, junior warden; Max Reinhaus, treasurer and R. W. Mead, secretary. Installation of officers will be held Friday, January 31, at 8 p. m. William Rhodes Hervey, past grand master of the state of California, will officiate. The installation ceremonies will be open to the public.

A joint meeting of the Y. M. C. A. Sunday school, basketball league committees will be held in the office of the Y. M. C. A. in the Spurgeon building tonight at 6:30. The purpose of this meeting is to arrange the schedule and line-up for the clubs that are to participate in the basketball league. The date at which the league schedule will open is also to be decided upon.

According to information given by Los Angeles police, the most important witness in what appears to be the satisfactory identification of the murdered and mutilated woman discovered in a Los Angeles grove Sunday is Dr. J. Elton Lange, a dentist, who is well known in Santa Ana and whose wife was formerly Miss Pearl Wall of Santa Ana. Press dispatches state that Dr. Lange's identification rests upon dental work done by him for the woman, who is believed to be Mrs. Fay Sudow, of Los Angeles.

**Frank C. Remsburg** has returned from Springfield, O., where he entered into a contract with the Rudgeley Trimmer company for the manufacture and sale, on a royalty basis, of a glass-cutting device invented by Remsburg.

The Balboa Methodist Episcopal church has completed in Santa Ana preparation of its articles of incorporation. The trustees are May Coon, H. Bay Webster and Melvin S. Buck, all of Balboa. The church is at Balboa. It is a non-profit and no-stock organization.

**Dr. Caroline Cook Coffin**, of the California Dairy Council, is to be the principal speaker at the Kiwanis club luncheon tomorrow at noon. She will speak on the value of milk in connection with the welfare of the school children. E. L. Crawford will be chairman. Every Kiwanian is urged to attend and to bring a friend as his guest. The luncheon and Earl Fraser are to conduct a singing session before the luncheon. Members are requested to come a little earlier and to take part in this feature of the program. The luncheon will be held at James' Cafe.

Working in the interests of Long Beach's First Annual Industrial Exposition, C. C. Cutshaw, representing the Chamber of Commerce of the beach city was a visitor in Santa Ana late yesterday afternoon. The exposition, Cutshaw announced, is to start January 31 and will continue for one week. The display will be made up of Long Beach products of all sorts. Cutshaw seeks the co-operation of the Santa Ana Chamber of Commerce in connection with certain features of the forthcoming exposition.

**Mr. and Mrs. F. L. Kientz**, 806 South Birch street, will leave Saturday on a two-months' trip that will take them to San Antonio, Texas, points in Florida, and to Havana, Cuba. They plan to spend Christmas with their son, who is in the air service and is stationed at Kelly Field, outside San Antonio. In Florida they will visit Palm Beach and Jacksonville. F. L. Kientz is a brother of Otto Kientz, who was seriously injured in an automobile accident at Alhambra several weeks ago and who will be at the Community hospital for two months longer.

## LONDON CELEBRATES ON DUKE'S BIRTHDAY

**LONDON, Dec. 14**—The Duke of York, second son of King George and Queen Mary, celebrates his twenty-fifth birthday today, and artillery salutes were fired at all naval and military stations in honor of the occasion, while flags were flown from the government offices.

The duke, although overshadowed somewhat by his popular elder brother, is rapidly winning public esteem. Commencing like all his brothers, in the navy, he turned his attention to flying and is now a most capable pilot, with the rank of Wing Commander (equivalent to major) in the Royal Air Force.

**EX-SERVICE MAN DEAD**  
**SAN DIEGO, Dec. 14**—Carroll Downey Cox, aged 25, former college athlete, ex-service man and a member of San Diego post, American Legion, died yesterday at a sanitarium in the mountains east of San Diego, where he had been for the last few weeks of a losing fight against tuberculosis. He contracted the disease as a result of a severe illness while in the naval service during the war and had been under treatment for about a year.

Double S. & H. Green Trading Stamps tomorrow (Wednesday) until 2:30, at Leipsics.

## TO FACE TRIAL OF MANN ACT ACCUSATION

"You can't beat a woman's spite. My first wife has certainly proved that to me. There is nothing in the charge. She is merely persecuting me. I will have no trouble clearing myself, but I feel mighty sorry for all that my present wife is having to suffer because of this groundless charge."

This was the statement made today by Jack Rabbitt, alias A. H. Joy, alias Roberts, who was today formally charged by federal authorities with violation of the Mann act, and who was this afternoon on his way to Los Angeles in the custody of United States Deputy Marshal Dolph S. Bassett.

Rabbitt is formally charged with having in September 1919 paid the transportation of Lillian May Dean, alias Sinclair, from New York City to San Antonio, Texas, for immoral purposes. The Dean woman is the same one, according to authorities, whom Rabbitt represented to be Mrs. Joy while staying at the Hotel Valencia in Anaheim.

**Claims Marriage**  
 Rabbitt stated today as he was about to leave for Los Angeles in the custody of the federal officer that he married Miss Dean in San Antonio, and that he did not transport her to San Antonio for immoral purposes, but that she came to San Antonio during their preparations for the wedding.

Rabbitt was apprehended at Huntington Beach where he was working as a stock salesman, after a sensational flight from the Hotel Valencia in Anaheim in a machine he was alleged to have stolen from S. W. Miller. He was held here on a felony charge in connection with Miller's machine, and on a misdemeanor charge growing out of his having left the hotel with his baggage and without having paid his bill.

Mrs. Rabbitt No. 2, in connection with whom the charges were placed, is still in Los Angeles. Rabbitt will be taken back to San Antonio to stand trial in the federal court here. In case he is not convicted he will be returned here to face the felony and misdemeanor charges growing out of his Anaheim flight.

## AMATEUR PARENTS FAVOR BOY BABIES

**LOS ANGELES, Dec. 14**—Whether Riverside orphan babies are more desirable than those of other communities is not known, but certain it is that there are calls almost daily from man and woman from out of town who wish to adopt some homeless waif.

According to C. W. Mathews, probation officer and ex-officio father to all the children at the county hospital and detention home, boy babies are most favored by those wishing to adopt a child. Why this is so the county official is unable to say, as there are usually a number of homeless little girls just waiting to be good children to amateur parents.

"I don't see why folks want boy babies to adopt," said Probation Officer Mathews last night. "Unless it is because of the high cost of girls' and women's clothes. A man-child can run around in not much but a pair of overalls; but a girl—well, she's different."

Though most of those wishing children for adoption prefer tiny babies—that they can train in the way they should go—children as old as 12 or 13 have been adopted from the local juvenile court.

Some of the babies under the care of Probation Officer Mathews have been abandoned by their parents—nobody will ever know who their parents were, probably. Others have been relinquished by parents who already have an overplus of off-spring and cannot afford to bring up another child. Still others belong to the pitifully tragic army of the illegitimate. Even these have little difficulty in finding a welcome in many homes, and evidently the old-time prejudice against these "love-children" are fading before the desire for little children to caress and care for.

During the past few months 15 children have been adopted from the Riverside county hospital and detention home; eight of these going into homes outside the borders of this county.

## BRITISH WILL USE CAL. FARM METHODS IN FAR MESOPOTAMIA

**STANFORD UNIVERSITY, Dec. 14**—It became known here today that Colonel J. M. Birch, D. S. O., an attaché of General Allenby's forces which captured Palestine officially visited the University of California Farm at Davis recently to investigate cereal varieties and cropping methods, preparatory to returning to Mosul, Mesopotamia as director of the proposed experiment station and 5000-acre demonstration farm at that place. General Birch will return with a supply of University of California Marout and Four Thousand seed barley and about \$100,000 worth of American machinery including tractors, plows, harrows, cultivators, drills and combined harvesters.

After investigating the agricultural resources of the new British possessions in Mesopotamia Colonel Birch reports that the Arab farmers have done only what necessity impelled for the advancement of agriculture. They are declared to know nothing of using special wheat and barley varieties to suit special conditions, and their field operations are of the rudest and most primitive character. Grain is sown and harvested by hand and is threshed by trampling with oxen. The British government is declared planning an innovation in the agriculture of her new possessions in Mesopotamia and Arabia through the introduction of modern American seed, implements and methods.

## EX-LIQUOR DEALER MAKES MILLIONS FROM \$2000 IN 2 YEARS

**OAKLAND, Dec. 14**—A millionaire in two years' time, starting with a capital of \$2000, is the feat that has been accomplished by Horace Hare, a real estate dealer of Oakland, who returned home from Tahiti this week.

Two years ago Hare was in the wholesale liquor business, but was not making as much money as he thought he could, and, overhearing some one talking about Tahiti, decided to take his small capital and investigate the chances of increasing it to sizable proportions.

According to Hare's story, upon arrival in Tahiti he invested his capital in a plant that made fertilizer out of non-edible fish. This enterprise succeeded, and with his earnings from this business and a few original ideas he speedily became interested in numerous enterprises, among them being the Greater Tahitian Sugar Plantations, the Tahiti Berbery and the Tahitian Ice company.

In addition to the above, Hare says that an American bank is shortly to start operations in Tahiti, and he will be interested in this enterprise also. He will return to Tahiti after several months' stay in Oakland, during which time he intends to give his personal attention to his business interests in this country.

## 12,000 DOZEN EGGS ARE SHIPPED EAST

**SAN DIEGO, Dec. 14**—Twelve thousand dozen eggs, or a full carload, were shipped in one day to New York by the San Diego Poultry association, according to a report made to the Chamber of Commerce by an officer of the association. While the eggs were being loaded into a car, three carloads of grain and one of bran were standing on the siding at the association's big warehouse at 50 Twenty-second street ready to be unloaded.

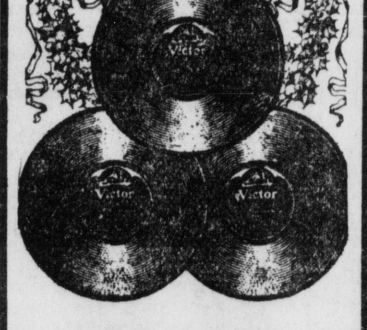

The receipts, according to the officer, were: One carload of eggs from New Mexico, one carload of milo maize from Imperial Valley, one carload of corn from Nebraska, and one carload of bran from Kansas.

Relative to the activities of the association, the representative said: "This is merely a common weekly occurrence. From eight to ten carloads of grain are received each week by the association and a carload or two of eggs are shipped out. In addition to this, large quantities of feed are moving out each week. The association has its own mill and grinds various grains and other commodities connected with the poultry business. We prepare our own wash, which contains from 12 to 15 ingredients.

"The poultry business here is growing so rapidly that few persons in this community realize what an important industry they have in their midst. Handling of poultry, eggs and the various kinds of feed devolves upon the association, which recently erected a large warehouse and feed mill to care for this rapidly growing industry.

"San Diego county is fast coming to the front as a poultry raising section. It is my opinion that it will not be many years before this is the state's banner egg-producing county."

**FOR RENT**—3 rooms and garage \$30.00 per month. E. J. Easton, 226 Spurgeon. Phone 198.

**Give Them Victor Records This Christmas**

Family and friends—these make life for you. They all like to hear music. They hear the world's best interpreted by the great Victor artists. As for the young folks—they will revel in the new dances. ## JAIL WOMAN AS \$30,000 GEMS ARE FOUND

**LOS ANGELES, Dec. 14**—Pearls and diamonds valued at \$30,000 were in the hands of the police today as a result of a search of a safety deposit box maintained in the name of Mrs. Florence Matthews, under arrest here and suspected of being one of the cleverest shoplifters and pickpockets that ever operated.

These gems were in addition to jewelry, clothing and other articles valued at about \$50,000 which were seized when detectives raided the palatial Matthews home. Mrs. Matthews is the wife of a prominent theater manager. Both are in jail. "I have been a fool. My husband is innocent," is all Mrs. Matthews would say.

"My wife is to blame," declared Matthews. Mrs. Matthews is declared by police here to be well known in New York and New Jersey as a shoplifter. Her mother, Mrs. Katie Musbach, lives in New Jersey and it is suspected the daughter has shipped crates of stolen articles to her to be disposed of. Theft from fashionable residential sections are being checked up.

Detectives said they learned Mrs. Matthews has \$30,000 in a bank here. In addition she owns the mansion she and her husband live in and is having another residence built in the exclusive Wilshire district. She also through a loan has an indirect interest in a Santa Ana furniture store.

A report in Los Angeles papers states that Mrs. Matthews owns a half-interest in a Santa Ana furniture store. An investigation by Deputy District Attorney W. F. Menton today convinced him that the report is incorrect. He was informed that Mrs. Matthews has loaned some money to a Santa Ana man who at one time was employed in an eastern store with her husband.

## BARGE SAFE AFTER ROUGH PACIFIC TRIP

**PORT ANGELES, Wash., Dec. 14**—Battered by heavy gales the barge Rufus E. Wood, in tow of the steamer Port Angeles, arrived here late last night from the Hawaiian Islands, reporting one of the stormiest trips on record. The Wood will be compelled to make repairs before taking on a cargo here.

"The Shop Uplaire" for unusual and beautiful gifts—111 1/2 West Fourth.

## OUR MEXICAN PROBLEM

It is disagreeable to drag the Mexican peon into the love feast in which Mexico and the United States have been engaged lately, yet that personage is a fact that must be considered.

During the past few months the largest single racial element entering this country has been Mexican. National attention is centered mostly on the eastern seaports, where the British, Scandinavians, etc., come in. The Mexican immigrants are more numerous than any of them. Nearly all of these Mexicans are ignorant.

The charge is made in New York that while Ellis Island and other Eastern ports of entry have been about as well guarded as the law allowed, illegal immigration over the southern border has been "practically unrestricted," and it is charged that the unskilled labor market of the Middle West has been "poisoned" as far north as Iowa.

These past few years, Mexicans have been welcomed in cotton fields, sugar beet fields and mines of the Southwest. At times there has been real need for them. The most workable method of getting Mexican labor has been that employed here a few years ago when Mexicans were brought in on federal permits and under contract and were returned to their own country when the work for which they were brought across the border had been completed.

If for no other reason than for the matter of health menace, immigration laws should be strictly enforced. Orange county farmers would gladly employ white men to do their work, but so far they have been unable to find white men who are willing to do the kind of work that Mexicans will do, at least not in numbers sufficient to meet the needs of the farms.

If white men become available for employment on Orange county farms in thinning and harvesting beets, if they will do the work in the way and at the time the farmers want it done, they will be given the work, and, lacking jobs, the Mexicans will probably return to their own country. The Mexican who does not like things here, who gets out of work, who hears a wild story to the effect that he is to be forced into the army to fight the Germans, the Japanese or the king of the Fiji Islands is likely to pick up stakes and be south of the border within a week. In that respect he differs from the ordinary European immigrant. The European, once here, is not easily removed.

Our Mexican problem in Southern California is growing. Those engaged in Americanization work are realizing that their task is no small one. The limitation of the ordinary Mexican in development toward American citizenship is calling up discussions among people who hitherto gave the matter little thought. The fact that Mexicans do not seek citizenship, know nothing about citizenship and care less is significant. Not more than two or three Mexicans have ever applied for citizenship through the Orange county courts, and, if ever a one of them was granted citizenship that fact is not now recalled.

The situation so far as the Mexican is concerned calls for careful consideration. We should look into the future and visualize our Mexican population as it will be some twenty or thirty years from now. If Mexicans are allowed to cross the border at will, how long is it going to be before we find ourselves facing a fifty-fifty split between the two races? It is a problem a hundred times more troublesome than it now is?

## ON THEIR FEET

A year ago, even six months ago, there was universal criticism of the railroads. Has anyone heard any serious criticism lately? Service, passenger and freight, is improved almost everywhere. Fewer trains are behind time. There are fewer accidents. Goods are moved more promptly. There are more cars available for service where and when they are wanted. The whole system is running more smoothly.

The latest report on cars is a good index to the general efficiency prevailing. During the war the cars laid up for repair averaged fifteen to twenty per cent. Now the Pennsylvania has only three per cent of its cars out of commission, and several other big lines make almost as good a showing. The usual average in normal times has been five or six per cent. The car situation is better than

it has been since the beginning of the war.

Some of the improvement is undoubtedly due to the slump in business, which has eased the freight burden. The increased rates have helped. But the biggest factor is the energy and intelligence with which the men running the roads have taken up the task of putting American transportation on its feet again.

## THE "NIXIE" LETTER

Do you belong to the "nixie letter" lodge? If you do, you'd better stop picking on the postal service and take care in addressing your letters.

"Nixie" is the term applied by postal employees to letters which are illegibly or wrongly addressed, or which have no address at all. Fifteen hundred letters of this kind go through one postoffice in one town every day, and a force of 15 men is kept busy day and night trying to determine their destination. Add to these the figures for all the towns in the country, and as the good old hymn inquires, "What will the harvest be?"

Poor writing, incorrect spelling, incorrect abbreviation, address wrong or entirely missing, all go to the making of the "nixie letter," and have accounted for thousands of delays blamed unjustly on Uncle Sam.

Correct addressing of mail is always important, but never more so than at holiday time when the mails are flooded and all postal employees overworked.

According to the Chilean minister, there is no truth in the report that Chile has made an alliance with Japan. Chile ought to be able to turn any nation down cold.

## Our Future District

San Bernardino Sun—Brethren of the press are outlining the future Congressional district, most of them having as the text, implied or expressed an inquiry about "where will we land when the reapportionment is completed at Sacramento?"

Enough has developed to make it quite evident that no part of the present district is keen to become an appendage to a district dominated by Los Angeles county, although both the Riverside Press and the Santa Ana Register are willing to take a small part of the east end of Los Angeles county in with a district that might include Orange, Riverside and San Bernardino counties. (Which is a beautiful dream, but is hardly likely to be more than that, for the reason that it leaves no arrangement whatever for San Diego and Imperial. Likewise, both journals are quite frank in suggesting that their respective counties do not look with favor upon being "tied to San Diego's overwhelming vote.")

It is interesting to speculate, but until we know more than we do now with reference to what the size of the future Congressional districts may be, it is difficult to get anywhere. But regardless of the number of people which Congress finally fixes as the proper size of a Congressional district, the Sun is going to cling to the notion that the Eleventh district as now constituted is about the best arrangement that can be made, even though it may be 100,000 too big. It goes without saying that San Diego and Imperial counties must be in the most southerly district of California. That being the case, it is also a certainty that either Orange or Riverside county will be required, and perhaps both of them, to make up the requisite population for the district, which requisite is now about 212,000, and will not be less than that in the future, although Congress might increase it to 235,000 or 250,000.

If Riverside or Orange county or both of them should be placed in the district with San Diego, The Sun opines that the voters of San Bernardino county would largely prefer to go into the same district, regardless of the fact that it might make a district with 300,000 or more population. The interests of the counties are largely identical, there is a community of interest based on long acquaintance in addition to the similarity of production and industries, and as between being pitchforked into a district controlled by Los Angeles county, or made a part of a district reaching up-state, the continuation of present district alliances has its advantages.

## The Too Handy Pistol

Sacramento Record—During November 159 revolvers were purchased in that city, according to police records of pawnshops and other store sales. Since the tragedy at Santa Rosa when three officers lost their lives the chief of police of the capital city has been drawing up a bill to be submitted to the next legislature to make it more difficult for criminals or men with prison records to pick up weapons. The bill would prohibit anyone from buying firearms, bowie knives, brass knuckles, etc., without first securing a permit from the various police departments in the state. This measure would keep no reputable citizen from purchasing a weapon but would stop the easy trade in cheap six-shooters at pawn shops where most of the criminals secure the weapons with which they perpetrate their murders and holdups, says the Sacramento chief.

The Record has long contended that it should not be so easy for irresponsible to buy firearms. At least as much restriction should be placed on their sale as on the sale of poison.

The whole matter of having firearms lying around handy needs revision. The death of so many children because of the ease with which they could find guns, pistols and rifles to play with shows that a lot of educational work should be done among parents as well as laws made for criminals. The Sacramento measure is expected to be endorsed by the police officials of the state before it is presented by a legislator.

## Sound Business Policy

Pasadena Star-News

Suggested damming of the San Gabriel, and resultant prevention of floods and impoundment of flood waters, is receiving considerable attention. Whether or not it be practicable to undertake this, at this time, the suggestion brings up the big possibilities of conservation through scientific flood-control. The benefits of this are both positive and negative.

The positive advantages arise from the augmented water supplies, which add to irrigation possibilities, and also the possibilities of power development. These are of stupendous potential value, here in California. The time may come—probably will come—when the San Gabriel river will be dammed as suggested, and from such damming will result enormous agricultural and horticultural development, as well as power development.

California's turbulent streams not only wreak great havoc if allowed to run unchecked, but deposit silt in harbors and thus become a source of obstruction to navigation. This, added to the ruin of property along the course of the flooded streams, runs the total of annual flood losses in this state into dismally huge figures.

It would be an economically sound proposition to expend large sums, in course of time, in controlling the streams of the state which are subject to destructive freshets.

## Worth While Verses

### SLUMBER SONGS

Sleep, little eyes  
 That brim with childish tears amid thy play,  
 Be comforted! No grief of night can weigh  
 Against the joys that throng thy coming day.

Sleep, little heart!  
 There is no place in Slumberland for tears;  
 Life soon enough will bring its chilling fears  
 And sorrows that will dim the after years.  
 Sleep, little heart!

Ah, little eyes  
 Dead Blossoms of a springtime long ago,  
 That life's storm crushed and left to lie below  
 The benediction of the falling snow!

Sleep, little heart  
 That ceased so long ago its frantic beat!  
 The years that come and go with silent feet  
 Have naught to tell save this—that rest is sweet.  
 Dear little heart.

—By John McCrae in "In Flanders Field."

## Today's Talk

By George Matthew Adams

### TONGUES AND FACES

Tongues are wonderful organs. One, powerful and gifted tongue has often aroused the conscience of a world.

And many times an unkind tongue has brought tears to the face of a little child.

A man is given a terribly responsibility when he is given his tongue. Solomon, I believe it was, who said that the man who knew how to control his tongue was greater than the man who was able to take a city.

A tongue is able to do a great many things that it should not do! Sometimes it gets very hot and wants to travel very fast. But then is when it should curl up and—answer not a word.

The damage that a tongue is able to do is beyond repair. For an unkind word or some cutting phrase lingers in the mind and sometimes lives to the day when the heart that it has wounded, dies.

If you have a "silver tongue," try to teach it that "silence is golden!" You never quite know how to judge a face until the tongue just inside its door, comes out to talk. But you can classify the face very quickly after that happens!

Faces that repulse one on first sight, have a fascination that mere beauty is never able to give just the minute one finds that a kind and beautiful tongue lives inside. And the eyes in such a face grow in luster the longer they are studied.

If there are things that you feel you must say that would surely wound a human heart, then—don't say them. Unless you say them to the wind alone.

Words can never be recalled. And tongues are never sorry. So try to be kind and generous. The only honesty of helpfulness is the one without wound—the teaching of the "moralists" notwithstanding.

## Jokes, Joshes and Jingles

### TOMMY WAS NO GAMBLER.

Tommy, a small Presbyterian, was being examined in the catechisms by the visiting minister.

"What is meant by regeneration?" asked the divine.

"Why, it's just being born again," replied the victim, with some maternal prompting.

"And wouldn't you like to be born again?"

ain't taking no chances on being a girl!"—Judge.

### RETRENCHING.

The Wedding Guest—I notice you cut out the practice of throwing old shoes after the bride! Pretty custom, wasn't it?

The Bride's Father—And wasteful. After paying the wedding expenses my family will be wearing those old shoes for a year or so.—Houston 1st Post.

## Joyous Living In Fruition

Fresno Republican

Gaiety after all, is a matter of the soul, the heart, not of the body or the mind. One can be gay with virtually nothing, sombre, with all that the body can desire or the mind conceive. Outward circumstances, as the best, are but the aids, the utensils of gaiety, not the origin or the impulse of it.

This is why the Puritan notion that gaiety was of the body, sinful, and should be suppressed for reasons of bodily or mental sin was beside the mark. It is the reason why the gaiety that was and is based on such external aids as alcohol, is a failure. If one really lights of heart, alcohol does not help, and often hinders. If one be sombre of soul, the effervescence that comes from alcohol is a deceit and a snare.

Gaiety of spirit is one of the most happy, and one of the most useful of qualities. The impulse to happiness is almost synonymous with the struggle of life. We surely do not live to fulfill

duties, to face burdens, to offer sacrifices. All these things may be essential, the avoidance of them may be violative of the right to existence, but we do not primarily live for them. We live to live. We live for ourselves and for all who go to make up ourselves. Our friends, our neighbors, our fellow citizens, and humanity. And happiness, gaiety, activity, joyousness are the social evidence of life.

It will be good for us to learn how to promote gaiety that is creative of social and individual health. Individual sparkle, mutual pleasure, social and communal sharing of recreation, play that alternates with work, frivolity that does no one harm, expense of the good things of life that does not waste our own substance nor rob others—let us watch out, during the coming months and years for ways to bring joyous living to its full fruition. We can start right at home.

## Economic Soundness

Collected Evidence

At a meeting of the great captains of industry, the "Dollar-a-Year" men who served the country in various capacities during the war, Daniel Willard, president of the Baltimore and Ohio railroad, asserted the reason should soon be on a normal forward-moving basis. Everything the nation needs is to be found within its borders, he said, and its railroads had felt no recession in business and forewent none.

A similar expression came from Alexander Legge, general manager of the International Harvester Company. He said he was concerned about the decline in farm commodities but believed that relief would come soon although it would be gradual.

And Captain Hall in his "Weekly, Industrial Review" in the Los Angeles Times, says: "There is no weakening in the fundamental soundness of our economic position either at home or in other parts of the country, but especially in Southern California is business coming out of the readjustment period in better shape than elsewhere. Credit resources are sufficient, and funds are flowing into the banks from crop and other sources."

More particularly relating to real estate in Southern California, "Fact and Comment," in the Los Angeles Times says:

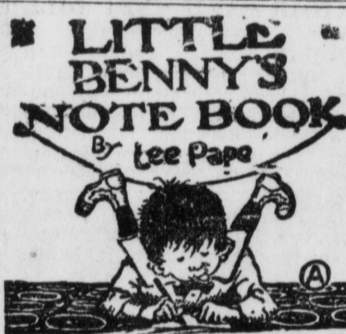

"The fact that building activities and real estate activities in the East have been quiet for the past few weeks constitutes no reason for pessimism on the part of the prospective purchaser of real estate, either for investment or for building purposes, in Southern California. Even though there develops a marked decline in real estate activities in the East the effects of such depression as far as Los Angeles, and in fact that of Southern California, is concerned will be long deferred, and when it does reach us, it will probably be in much less severe form."

"The trails to California, we are

informed by motorists who are arriving here daily, are strewn not with animals who have perished on the overland trail, or with rusted wagon wheels, but with worn out motor car tires and the discarded equipment of automobilists en route to Los Angeles. Herein lies one of the reasons why there will be no industrial depression in Southern California."

"Thousands of people are now bound this way, and, according to press reports, thousands more are yet to come. It is safe to assume that a large proportion of these people are coming here for the purpose of making their homes; they will become permanent residents of the community, and many of them will undoubtedly become active in its industrial and agricultural development. A million people in all parts of the United States have already made up their minds to come to Southern California to live as soon as they can make the arrangements to do so, and the Chamber of Commerce is now preparing to house a greater number of new arrivals after the first of the year than have ever before been accommodated through its housing bureau."

"Another factor which is going to keep the real estate market strong and active, regardless of what happens elsewhere, is the fact that these people will buy real estate in its various forms. Some of them will want homes, others will invest in farms and some will buy city business or industrial property. Building activities must, therefore, necessarily be maintained at a high level in order to provide the necessary accommodations for these newcomers. "It should be remembered that the amount of available land in Southern California for farming or agricultural purposes is limited, and a large part of it is already under cultivation. One of the results of our rapid expansion in population, therefore, will be the development of new lands, and probably more intensive cultivation of those already under development."

## The People's Forum

Brief communications will be published under this head, provided they are signed by the author. However, the Editor shall be the sole judge as to the propriety of publishing any communication, and the Register assumes no responsibility for any views expressed in this column.

### CONDEMNNS SANTA ROSA SHERIFF

Editor, Register: "In fighting a battle, the question is whether you will show a hat that is white, or a feather."

The sheriff of Santa Rosa was forewarned of the attack of the mob. His act stamps him as a man totally unfit to hold a position of public trust requiring courage and resourcefulness, if indeed it does not show an understanding that there would be only a passive resistance, just enough to "save his face."

It is the first duty of every citizen to obey the laws of the land. The action of a mob that with an imaginary grievance is a greater menace to organized society than the delinquents of the underworld, or the blatant Red who flaunts his ignorance in the face of the public.

There was no excuse for the action of the mob. To condone it by inaction is to invite repetition. If the district attorney is worthy of the high office to which he has been elected, he will stamp such lawlessness from his county and he should have the active support of every good citizen.

Respectfully,  
 JAMES MCGINNIS, Tustin, Cal.

## DEFINITIONS

(By Thos. Speed Mosby.)

SNARE.—A trap for the unwary; it may be either a blonde or a brunette.

STAR.—A celestial body that twinkles without charging for it.

TEMPERATURE.—A thermometer condition which artists sometimes mistake for temperament.

UMBRELLA.—A portable awning which interferes with the Almighty's plan by preventing the rain from falling on the unjust.

VOTE.—The agency through which the American people so often elect the wrong man to office.

WATER.—A liquid; not a beverage.

CLARINET.—An elongated instrument of torture.

YACHT.—A sail boat, usually designed for the purpose of losing money for its friends.

## THE SOCIAL MIRROR

### Wedding of Interest Solemnized Sunday

Mr. Orlando James of 309 West Bishop street, and Miss Ethel Walker, of Troy, New York were quietly married at the First Christian church on Sunday.

The bride is the daughter of Mr. Duane D. Walker, now at Catskill, N. Y., and has lived in Santa Ana only a short time. Those attending the wedding were Mrs. E. A. James, mother of the groom, Mrs. Lilly Bond, a cousin, and Mrs. Sue Spencer, a friend of the bride. Mr. James has been a resident of Santa Ana for four years and is a brother of the confectioner, W. H. James.

Mr. and Mrs. James have the best wishes of a host of friends, and they will be at home after January first at 309 West Bishop street.

**Daughters of Veterans**  
The Sarah A. Rounds Tent No. 10, Daughters of Veterans, met yesterday afternoon at the G. A. R. hall, with a large attendance. A number of applications for membership were submitted. Charlotte M. Clinton was received as a new member, and the election of new officers took place, as follows:

Mrs. Edith Gardner, president; Mrs. Nellie Parker, senior vice-president; Mrs. Floss La Bounty, junior vice-president; Mrs. Lillian H. Arms, chaplain; Miss Edith Ward, treasurer; Mesdames Louise Leach, Adda Cowan and Harriett F. Leipsic, counselors; Emma Chapman, patriotic instructor.

Forty sick calls were reported, and seventeen bouquets delivered. The usual meeting day was changed to the first and third Tuesday of each month, beginning January 1.

**Pretty Luncheon**  
Mrs. D. E. King entertained yesterday at her home in Tustin with a delightful four-course luncheon, honoring the birthday of her mother, Mrs. Stella Menges.

The table appointments were in yellow with French marigolds centering the table, holly and poinsettias being used in the living rooms. Mrs. Menges received many pretty gifts. Those present were: Mrs. Stella Menges, and daughter Helen, Mrs. George Menges and Mrs. Mit Phillips of Santa Ana, Mesdames Mark Menges, J. T. Hill and John Menges, of Fullerton; Dr. Boyd of Los Angeles, sister of Mrs. Menges was also present. Mrs. Phillips sang a number of delightful solos, and the afternoon quickly passed with conversation and congratulations for the honoree.

**Ebell Board Meeting**  
At a called meeting of the Executive board of the Ebell society, held this morning at the home of the president, Mrs. J. E. Gowen, it was voted to give \$50 to the Children's Relief fund.

The board also passed a motion to endorse the movement set on foot by the Parent-Teacher associations to secure a policeman for Santa Ana.

**Day Nursery Tree**  
It is announced by the Day Nursery committee of Ebell that their Christmas tree celebration will be held on December 22 at the Day Nursery.

**New Yeoman Lodge to Install**  
The new Yeoman lodge of Fullerton will install Thursday evening, and will also initiate a class of seventy-five candidates, thirty of them being for the new lodge, the others coming from Santa Ana, Orange and Anaheim. The degree work will be handled by the Anaheim team, the installation will be by State Manager W. J. Elliott. There will be present Chairman of Board of Directors W. R. Shirley of Muskogee, Okla., and other prominent officers of the order. Santa Ana lodge will leave the M. W. A. Hall Thursday evening at 7:30 p. m. in a body for Fullerton, falling in with Anaheim and Orange at Anaheim at 8 p. m. The work will start at 8:30 sharp in I. O. F. Hall. A cordial welcome is extended to all Yeomen.

### THE WONDERFUL WORLD.

The great, wide, beautiful, wonderful World.  
With the wonderful water round you curled,  
And the wonderful grass upon your breast,  
World, you are beautifully dressed.

The wonderful air is over me,  
And the wonderful wind is shaking the tree—  
It walks on the water, and whirls the mills,  
And talks to itself on the top of the hills.

You friendly Earth, how far do you go,  
With the wheat-fields that nod and the rivers that flow,  
With cities and gardens and cliffs and isles,  
And the people upon you for thousands of miles?

—William B. Rands.

### Women's Union to Meet

The Missionary department of the Women's Union of the First Congregational church will hold its December meeting on Wednesday at the home of Mrs. E. M. Nealey in Tustin. Mrs. Bond will give a short skit entitled, "The Making of a Picture." Mrs. Mary P. Bruner will have charge of devotionals, and Mrs. J. S. Talcott will have an article on current events. The hostess will be assisted by Mesdames C. M. Rowland, W. S. Decker, J. A. Peek and M. B. Winslow.

Section leaders will arrange transportation unless it rains, in which case, the meeting will be held at the church. There will be the annual election of officers.

**D. A. R.**  
The Daughters of the American Revolution are requested to meet at the home of Miss Charlotte Dresser, 115 East Tenth street, tomorrow afternoon at 2 o'clock, to dress dolls. Please bring materials.

**Sixth Section Economics.**  
The members of the Sixth Section of Household Economics will meet with Mrs. J. P. Baumgartner, 1718 North Main street, Friday, December 17, for luncheon, at 12:30.

**Rebekah Initiation Exercises.**  
Sixteen new members were admitted into the Sycamore Rebekah lodge at initiation services held in Odd Fellows Hall, Saturday evening. The staff served a banquet to more than a hundred members, following the formal lodge meeting.

**Sons of Veterans.**  
The election of officers for Santa Ana Camp No. 12, Sons of Veterans, will be held at a regular monthly meeting on Wednesday, at 7:30 p. m., at the G. A. R. Hall. There is also other important business to come before the camp and a large turnout is expected. As the membership of the camp has been largely increased during the present campaign for members, the meeting should be made very interesting, if all come.

### PUNCHBOARDS UNDER BAN IN NEVADA CITY

NEVADA CITY, Dec. 14.—Punchboards have been placed under the ban by Sheriff John R. Martin of Nevada county, who has announced that arrests under the anti-gambling laws will follow their use. Scores of these boards have been in use in Nevada City and Grass Valley, virtually every public place running them.

**HARDTIME DANCE**  
A hardtime dance will be given by the Fraternal Brotherhood Thursday, Dec. 16th, in the Woodman hall. Everyone come dressed in your old clothes. Prizes for the worst costumes.

Have you seen The Shop Upstairs at 111 1-2 West Fourth?

### PERSONALS

Mrs. Hugh J. Heaney, 716 East Second street, is in Los Angeles for several days, visiting relatives of her husband.

W. W. Krickmer has left for Kansas City on business.

H. J. Black, 1628 West Second street, left Sunday morning for Kansas City, Mo.

Tom Harnois, son of Mr. and Mrs. C. A. Hahn, has arrived from Butte, Mont., and will make his home at 311 South Broadway.

Miss Harriett Schultz, who was operated on for appendicitis, was removed from the Community hospital Sunday, to her home, 1637 West Fourth street.

Mrs. E. C. Yarnell, who suffered a severe injury several weeks ago, is gradually recovering at the Community hospital. She is 84 years old, and a cheerful patient.

Mrs. Melvin C. Moore, who has been quite ill at the Community hospital, is now showing a decided improvement.

Mrs. M. C. Wilde, of 514 East Chestnut left Monday night to join her husband in San Francisco. They will return together the latter part of the week.

Mr. and Mrs. H. S. Anderson and Mr. and Mrs. D. Anderson of Ellwood, Missouri, have arrived here and will spend the winter at the home of Mr. and Mrs. G. W. Anderson, 720 West Third street.

Mrs. H. A. Lang, of Seattle, is a guest of Mr. and Mrs. Ashby Turner, 810 South Sycamore. Mrs. Turner's mother, Mrs. Peter Mottz, and sister, Miss Nora Mottz, of St. Louis, are also guests of the Turners.

Frank C. Remsburg has returned from a five-weeks' visit to relatives in Ohio.

### U. S. TEACHERS IN DEMAND IN ISLANDS

BERKELEY, Dec. 14.—David P. Barrows, president of the University of California and former Director of Education of the Philippine islands, was appealed to by the Federal Bureau of Insular Affairs at Washington, D. C., through the Philippine educational agent, W. W. Marquardt, to aid in obtaining 100 new American teachers to be leaders in the Philippine schools. Barrows said he had pledged his support.

### OFFICERS DOUBT NEW TIP IN HAMON CASE

ARDMORE, Okla., Dec. 14.—Another mysterious "tip" that Clara Smith Hamon, sought on a charge of murder in connection with the death of Jake L. Hamon, millionaire oil man and politician, was believed to be getting her mail at Post Falls, Idaho, 20 miles east of Spokane, Wash., failed to arouse officers here. County Attorney Brown believed the "tip" was another false scent. Authorities were still combing the rugged country in the vicinity of El Paso, Texas.

### POSTAL AUTHORITIES HAVE NO TRACE OF WOMAN

SPOKANE, Wash., Dec. 14.—Postal authorities making their headquarters here today said they knew nothing with regard to reports that Clara Smith Hamon was receiving her mail at Post Falls, Idaho, near Spokane.

### TEN GRID GAMES ON HARVARD 1921 BILL

CAMBRIDGE, Mass., Dec. 14.—Ten games appear on Harvard's 1921 football schedule which was announced here today. The list includes Boston University and Middlebury College in a double header on September 24; Holy Cross October 1; Indiana, Oct. 8; University of Oregon, Oct. 15; Penn State, Oct. 22; Centre College, Oct. 29; Princeton at Princeton, Nov. 5; Brown, Nov. 12; Yale, Nov. 19.

### NORTH PACIFIC STORM HEADS FOR CALIFORNIA

SAN FRANCISCO, Dec. 14.—Storm warnings have been sent from San Francisco to Washington. The weather bureau said a storm sweeping from the North Pacific was expected to cause high winds from Point Reyes north, and rain from Mexican line to British Columbia.

The storm is now off Victoria, B. C., and may be expected in California tonight or tomorrow.

Eight inches of snow fell at Summit yesterday, making fifty-six inches on the ground.

**GHOSTS SCARE POSTMEN**  
LONG PINE, Neb., Dec. 14.—Postal authorities here are looking for a rural route driver who doesn't believe in ghosts. Three drivers recently resigned because they said ghosts along the Niobrara river persisted in hopping onto their flivver.

**A STICKY TIME ENJOYED**  
COLORADO SPRINGS, Dec. 14.—Firemen had a sticky time picking bread from their boots after a bakery fire here. They were forced to wade knee deep in bread dough.

"The Shop Upstairs," at 111 1-2 West Fourth is crowded with gifts of distinction. Miss Sumner's own designs in bags, hand-made lingerie, corsage decorations, pillows, runners, and lampshades. Also a great variety of the charming little boxed trifles for which the Summer Shop has become well known. Some late arrivals in pottery, decorated glass, etc., have just been unpacked.

We are making a specialty of

## Something Special For the Man Who Wants a New Suit

All Wool, finely Tailored Suits For Men and Young Men.

**\$25**

You're getting some mighty big values in these suits. Maybe you don't realize just how big the value is. It isn't merely that the price is \$25.00. That's low, of course. But it doesn't express the real quality of the suits. They are built up to a Standard. They have all those little niceties of finish and workmanship which add so much to their appearance and wearing quality. Former prices were \$35.00, \$40.00 and up to \$45.00.

This group includes fine weaves and patterns; you have a large variety to choose from. You'll appreciate the individual careful way we help you find the correct size and style.

**How Strange Things Sometimes Happen**

"I want to write you to let you know that I have taken 2 more doses of 'Mayr's Wonderful Remedy,' and have gained 10 lbs. in the last 2 weeks, although I am thinner around the waist than before, because the bloating in my stomach has all gone and I am feeling like a boy again. There never was anything in this world half so good as this medicine." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. Druggists everywhere.—Adv.

**TEACHER DENIES CHARGE OF CRUELTY**

CHICO, Dec. 14.—Miss Gladys Stark, teacher at the Pleasant Valley school, indignantly denied yesterday accusations made by M. Molinelli, clerk of the district school board in which he said nine children attending the school had the clothing torn from their bodies by the teacher. She also charges Molinelli with being a disturbing element in the school district and contrary to advice from state and county school authorities, he has violated the school law by refusing to notify parents to send their children to school.

The board has approved Miss Stark's salary warrant and prescribed new regulations for the school wherein she is prevented from disciplining the children except in the presence of a member of the school board and in a fashion which has their approval.

**BIG AUDIENCE IS PLEASED WITH ROBIN HOOD**

Santa Ana last night proved her appreciation of good things theatrical when an audience that taxed the capacity of the Yost theater evinced its hearty enjoyment of the famous De Koven comic opera, "Robin Hood."

An unusually attractive cast, with several voices of much more than passing merit, combined with a youthful chorus and a snappy orchestra to make this favorite opera a musical and a comedy treat such as Santa Ana has not had the opportunity of welcoming for several years.

Sings Way Into Favor.  
Albert Parr, who, both in looks and in voice, was perfectly cast as Robin Hood, sang his way into high favor, as did also William Degan as Will Scarlet, whose rich, resonant bass lent great charm to his rendition of "The Crow Song" and "The Armourer's Song," both of which were encored.

The solo and chorus, "Brown October Ale," was a favorite number, with Harry Longstreet as Little John. Mr. Longstreet's baritone was a delight to hear, and he was heartily encored, as was also Betty Baxter in her delightful rendition of "O Promise Me," which her contralto voice made rarely delightful. Miss Baxter made a most attractive Alan-a-dale.

Lovely Maid Marion.  
Elsie Thiede was a lovely and vivacious Maid Marion, with a clear soprano that was delightful in her solos, and that blended perfectly with the tenor of Albert Parr in her duets with Robin Hood. Her acting was very pleasing indeed. One cannot forget the charming plot that was hers while Robin Hood wooed her.

Mary Baker was an airy little Anabel, with an airy voice very sweet in its upper register.  
Tom Burton kept the joy-bells ringing with his broad comedy as the Sheriff of Nottingham, and kept his audience in a constant chuckle, though he took some rather unwarranted liberties with the text and his interpretations seemed at times a bit unnecessary. George Olsen gave probably the cleverest character sketch of the whole cast as Sir Guy of Gisbourne. He was never out of his part for an instant, and if nature has produced another pair of knees like unto his, she has so far kept them hidden.

Well Fitted for Part.  
Friar Tuck lost nothing of humor in the hands of William White, who was architecturally designed for the part, as was Madeline Hartford for plump and amiable Dame Durdene. The music was an especially delightful part of last night's performance, every chorus reminding the older theater-goers of good times perhaps thirty years ago, and acquainting the younger generation with the music that has made this opera a favorite for so many years.

**ILLNESS FATAL TO NOTED GRID PLAYER**

SOUTH BEND, Ind., Dec. 14.—George Gipp, Notre Dame's great football player and hailed by coaches and experts as one of the best halfbacks in the country, lost a game three weeks' fight against losing odds when he died here early today from pneumonia.

Gipp was 24 years old and in addition to being a star halfback was credited with being the cleverest baseball player in the history of Notre Dame. He was sought by major league managers and was expected to sign with the Chicago Cubs for an outfield position on next year's team.

The end came at 3:23 a. m. today. In addition to his mother, sister and brother, who came here from Laurium, Mich., two weeks ago, Coach Rockne and members of the Catholic eleven were at the bedside when the star died.

Gipp never played football until he came to Notre Dame. He had been a baseball player. During football practice one day Gipp appeared on the gridiron and when an oval rolled his way he picked it up and dropped it from the sixty-yard line for a perfect goal and then had little difficulty in making the team.

FOOTBALL NOT RESPONSIBLE FOR DEATH.  
SOUTH BEND, Ind., Dec. 14.—Football will not be blamed for the death of George Gipp.

According to Coach Rockne and relatives of Gipp, his participation in football was neither directly nor indirectly responsible for his death. "George's tonsils have bothered him for years," said his brother Matthew. "He should have had them taken out long ago but kept putting it off."

**CLEVELAND HIGH 11 SEEKS COAST GAME**

CLEVELAND, Ohio, Dec. 14.—The proposed football game between East Tech High of Cleveland and the Haverhill, Mass., high school team, for the right to play a Pacific coast team for the national championship has been declared off, according to word here. Haverhill sent word that the team was through playing for the season. East Tech is still negotiating for a western game.

**NIP BOMB PLOT TO SLAY CONSTANTINE**

LONDON, Dec. 14.—Bombs destined for King Constantine were found in Milan, Italy, several days ago, according to a dispatch to the Daily Mail. The explosives were found in possession of two Greeks, it was said. The king's staff was reported apprehensive.

**CHINESE MERCHANT OFFERS \$2000 PRIZE IN RACE WITH STORK**

SAN FRANCISCO, Dec. 14.—Wishing that his son might be a native son and a natural-born American citizen, Ng Hung Let, a merchant of Elko, Nev., who arrived on the China Mail steamer Nile with his wife and ten-day-old son, offered Capt. Henry Kingsley a \$2000 bonus if he could bring his vessel into San Francisco before the arrival of the stork, was the story told by Nile passengers.

Let was hastening home in anticipation of the expected arrival of a son and heir, and when two days out of Shanghai approached Captain Kingsley in much consternation and told him that should the Nile arrive in San Francisco before the arrival of the stork that a reward of \$2000 was his.

In spite of everything the captain could do to hasten the ship's arrival, the stork overtook the Nile on December 3 and presented the Celestial merchant of Elko with Ng George Nile, who, instead of being a native son and an American citizen, must pay allegiance to the British crown, for, although the Nile is operated by an American firm, it is British-owned and of British registry, and consequently flies the Union Jack at its masthead.

**URGES PLAN TO SAVE BIG SUM TO TEACHERS**

SACRAMENTO, Dec. 14.—Organization of a free employment service for the benefit of the public school teachers of California was advocated before the State Board of Education here by Mrs. M. L. Cheney, appointment secretary of the University of California and formerly head of the Bureau of Credentials of the board.

Through the activities carried on by the several state normal schools, Mrs. Cheney estimated that it is now costing the state \$15,910 yearly for teacher placement. She expressed the opinion that it is the duty of the state to take over the placement of teachers entirely and thereby eliminate the commissions required by private agencies.

Would Eliminate Waste.  
"Such a service properly organized," Mrs. Cheney pointed out, would save a "terrible waste," do away with overlapping in the work and make for better service and understanding all round.

She also made a plea for greater co-operation in the matter of registering teachers seeking employment as between the credentials department of the state board and her office at Berkeley.

President E. P. Clarke informed Mrs. Cheney that her report would be given proper investigation.

Cost of Placing.  
It is estimated that the University, including the Los Angeles branch, now spends \$11,100 per year for placing teachers. The cost of a year's work in the normal schools was estimated as follows:

San Jose, \$710; Santa Barbara, \$600; San Francisco, \$1,000; Fresno, \$1,000; San Diego, \$1,000; Arcata, \$500.

Mrs. Cheney reported that the Co-operative Bureau of the California Teachers' association registered 800 teachers last year and placed 500 of them at a cost of \$3,000. The saving in commissions is estimated at \$27,000.

Commercial agencies as a rule charge 5 per cent of the first year's salary for placing teachers. The result, school authorities claim, is that while the teacher pays the charge directly, the burden eventually falls upon the schools.

**FRAMERS ARE TO SIGN CHARTER TOMORROW**

The board of freeholders met last night and put in a long session going over the draft of the charter with Special Attorney Bishop. No changes in the provisions of the charter as heretofore passed upon by the board were made, except in legal and technical aspects.

Today the charter is being proof-read, and the freeholders will meet again tomorrow night to sign the document and fix the date of the election, which shall not be less than 60 days after the publication of the charter. Undoubtedly publication can be made within a few days, and certainly the election date will be fixed at the earliest possible time. So that the people will probably be called upon to vote on the charter about the third week in February, 1921.

The charter then goes to the legislature for approval, and when approved it becomes the organic law of the city of Santa Ana.

**SISLER 'KING OF SWAT' IN AMERICAN**

CHICAGO, Dec. 14.—Premier hitting honors in the American league go to George H. Sisler of St. Louis, who batted .407 in 154 games, according to the official batting averages given out here today. Sisler also hung up a record for number of hits made, 157.

Just what Charlie Comiskey's action in suspending alleged crooked ball players on his club did to his pennant winning chances next year can be seen in the fact that three of them batted .333 or better.

Tris Speaker, of Cleveland, was next to Sisler .388. Babe Ruth finished fifth. Joe Jackson of the White Sox was fourth. Ruth swatted .376 for a total of 172 hits and 158 runs. Ruth in addition to acquiring home run honors was second in whiffing honors. The home run king fanned 80 times.

R. J. Niehaus of Cleveland led the swatters. He batted .444 for 19 games. Ty Cobb averaged .334.

A photograph which is really YOU is priceless. Gibson's Studio, 415 North Broadway.

**SPEND BIG SUM ON PHOENIX DIVISION**

SAN FRANCISCO, Dec. 14.—Expenditure of several hundred thousand dollars for improvements on the newly created Phoenix division of the Santa Fe coast lines has been ordered by officials.

The Santa Fe plans to install larger locomotives on the Phoenix division, also, it is learned from authoritative sources. The present engines on the division are too light to move heavy trains at the least

the same standard of other divisions on the coast lines, it is announced. The store department here recently sent more than 30 cars of material and supplies to the division to be used in the rehabilitation process. Expenditures for improvements on the Santa Fe lines authorized during the past few months has established a new yearly record, it was recently announced.

WHAT you lose thru baking failure must be added to baking costs—it has to be paid for.  
Calumet Baking Powder will save you all of that. Because when you use it—there are no failures—no losses. Every baking is sweet and palatable—and stays moist, tender and delicious to the last tasty bite.

That's a big saving—but that isn't all. You save when you buy Calumet and you save when you use it.

Pure in the can - Pure in the baking

It is reasonable in cost and possesses more than the ordinary leavening strength. You pay less and use less. You get the most in purity, dependability and wholesomeness.

In every way—it is the best way to keep down baking costs. That's what has made it the world's biggest selling baking powder—has kept it the favorite of millions of housewives for more than thirty years.

Pound can of Calumet contains full 16 oz. Some baking powders come in 12 oz. instead of 16 oz. cans. Be sure you get a pound when you want it.

Calumet Sunshine Cake Recipe  
1/2 cup of butter,  
1 1/2 cups granulated sugar,  
2 1/2 cups flour, 1 cup water,  
2 level teaspoons Calumet Baking Powder,  
1 teaspoon lemon, yolks of 9 eggs.  
Then mix in the regular way.

**The Safest 6% Investment**

AT THIS time, when current conditions adversely affect many investments, shrewd buyers are turning to bonds based on the one fundamentally safe security. This security, improved real estate—the ground under foot and a roof over head—is:

THE FIRST necessity of human life, and THE LAST to be affected by wars, panics, adverse legislation or changing conditions.

We are now offering an especially attractive selection of these bonds netting 6% with 4% Federal Income Tax paid. We recommend these bonds as a safe investment.

# VANISHED BRIDE JAILED IN L. A. AS BIGAMIST

Mrs. Irene Glaze, 22, of Glendora, for whom a bigamy warrant was sworn out here on November 12 by her husband Edwin M. Glaze, 22, of San Pedro, who married her at Seal Beach on October 18, was to be brought back here today by Deputy Sheriff Mrs. Theo. Lacy from Los Angeles, where she was arrested under the name of Irene Wallace.

Glaze, according to his story, was deserted almost at the altar because he refused to be "worked" by the girl for a large sum of money which he claimed she wanted to give to her first husband, Charles Bassett Gibson, from whom she had never been divorced, and who, according to Glaze, is a fugitive from justice.

The girl, Glaze declared, tried to "work" him for the money almost as soon as they had left the office of the justice of the peace at Seal Beach. When he refused to give it to her, he said, she told him she had to go to Glendora to get some clothes. She never returned to him.

Husband Makes Probe  
On making an investigation afterward, Glaze alleges that he found his wife had been previously married to Gibson in Los Angeles in 1916. No record of her ever having been divorced from him could be found, according to Glaze. Glaze stated that Gibson, he found, is wanted on a felony complaint sworn to three years ago by a typewriter company in Los Angeles.

Glaze stated that he believed that his first wife has been in constant communication with her first husband, and that she married him, Glaze, under the impression that she could "work" him for money in order to keep her first husband out of the clutches of the authorities. He stated that the statute of limitations will shortly bar prosecution of Gibson on the felony-embellishment charge.

"How did you happen to marry her, anyhow?" asked Justice John B. Cox when Glaze appeared to swear to the complaint against his wife.

"Talked Like an Angel"  
"Judge, she talked like an angel," replied Glaze, "I could hardly believe what I found out about her record when I began to investigate."

"They all talk like angels," was the comment of the justice as he filed the complaint.

Although a warrant has been out for her arrest for more than a month, Mrs. Glaze, or Mrs. Gibson, was not apprehended until yesterday, when the Los Angeles police located her. It is reported, according to reports, that Gibson, her first husband, will be taken into custody shortly.

Glaze's father is said to be a deputy sheriff in Los Angeles, and he has three brothers on the police force there. Glaze said that his wife's maiden name is Irene Proviand, and that he first met her in Long Beach last winter and kept up an acquaintanceship until October, when they were married. Then she disappeared, he alleges.

May Be Ex-convict  
If Gibson is the man the police have in mind, he is an ex-convict who was released from San Quentin in 1916 after having served time on embezzlement or grand larceny charges lodged against him in San Francisco. An investigation was under way today to determine whether he is the same man.

# BRINGS SOUTH POLE FLAG BACK TO U. S.

BERKELEY, Cal., Dec. 14.—An American flag less than a foot square holding the distinction of being the first American flag to be waved in the vicinity of the South Pole, was brought to this city recently by A. J. Mueller, of Nome, Alaska, who is visiting in this city.

When Roald Amundsen, Arctic explorer, was preparing for his famous dash to the South Pole in Christiania, Norway, the flag was given to M. Ronnee, one of the party, by a daughter of the United States attaché in that city. M. Ronnee carried the flag with him through blizzards and across miles of ice floes until the party finally reached the pole. Christmas Eve the flag formed one of the decorations of a tiny Christmas tree in the cabin of Amundsen's ship, the "Fram" as it lay in an ice jam in 1918.

Mr. Amundsen and his party last year started on a trip to the North Pole. M. Ronnee, still in possession of the flag was one of the party. Amundsen's ship was forced to put in at Nome this summer for supplies. M. Ronnee became ill while the ship was held up and was forced to stay in Nome when the party left. While in Nome he met Mr. Mueller and a friendship sprang up between the two. When Mr. Mueller left for the "states" in October the explorer presented him with the flag.

Mr. Mueller has spent eighteen years in the Nome country. He brought with him from the north many curios of the frozen land putting them on display at a local store here.

Two Ways  
"You should see her sweep out a room."  
"How? With dignity or with a broom?"

# FIGHTS AND RUSHES FEARED AT BAY CITY

SAN DIEGO, Dec. 14.—Following the great inter-class rivalry at the high school for several weeks, which culminated in the suspension for one day of two sophomores caught Sunday night attempting to affix a class banner to the flag-pole, the four classes held meetings to stop the proceedings, which it was feared would end in a series of fights and rushes if allowed to continue.

The senior class adopted the following resolutions:

"Resolved, That it be the sense of this class

"That its members go on record as being against rough-housing with other classmates in or about the school premises.

"That school loyalty and school colors are paramount and superior to all other considerations.

"That hereafter the display of class colors should be guided and controlled by a central body, to consist of the class presidents, with Principal Wise as his assistant, meeting not less than once a month.

"That athletic competition and tug-of-war, indoor baseball games, etc., be recognized as an adequate substitute for rough-housing and conflicts."

# CLEVER THIEVES ROB CHINAMAN OF JEWELS

SHANGHAI, Dec. 14.—Foreign and native police departments throughout China are engaged in a hunt today that involves a story as weird as any of those told in Sam Rorer's Oriental tales. A green jade jewel which has a history as sinister as that of the Hope diamond has disappeared, after being shot through the head and is spending thousands in an endeavor to recover the gem.

Woo Sing-tang, owner of a tiny shop in the exclusive Bubbling Well district, is a dealer in rare gems. How he came to possess the fateful jewel, known in Chinese as "The Jade," he refuses to disclose.

American on Job  
A short time ago a well dressed stranger, apparently an American, entered the shop and asked to see the choicest jewels. The shopkeeper believed his customer to be a man of wealth and suggested that he obtain some rarer items than those on display. The foreigner agreed and an appointment was made for the next day.

When the customer kept the appointment, the merchant brought forth necklaces and unmounted jade of rare value. From the lot the foreigner selected jewels valued at Tael 5,000 (about \$7,000). He then requested the jeweler to accompany him to his home nearby, where the transaction would be completed.

"Wait," urged the merchant, "there is one more piece I want you to see." It was "The Jade."

The customer's eyes glistened. He asked the price. The merchant suggested that they discuss that matter when they reached the foreigner's home. He has since admitted that because he had learned the history of the jewel he wanted to be rid of it at almost any price.

Left Bloody Trail  
From the day of an early emperor, long before the Ming Dynasty, a path of blood has followed the sinister bit of green. Woo had been brooding over what he believed to be the fate that overhung him and believed he saw an opportunity of disposing of it and at the same time lining his pockets with gold.

The pair departed for the foreigner's home in richshas. It has since been discovered that the customer's conveyance was drawn by an accomplice, disguised as a coolie.

Arriving at a pretentious dwelling, owned by a wealthy resident of the International Settlement, the merchant was invited to enter. They passed through the gates. A shot was heard and the stranger and his accomplice disappeared before the police could reach the scene.

With them went "The Jade" and the other jewels.

FORM BIG PASSENGER  
ASSOCIATION IN L. A.  
LOS ANGELES, Dec. 14.—At a meeting held at the offices of the Rock Island lines in Los Angeles, an organization was formed which will be known as the Southern California Passenger Association, this title being selected instead of The Los Angeles Passenger association as originally proposed, inasmuch as it was decided to include all Southern California territory.

The purpose of the association is to create and foster a spirit of sociability, co-operation and good fellowship among the passenger men of all lines operating or represented in this territory. Its membership will consist of men engaged in handling passenger traffic, both rail and steamship.

The dues will be \$6 per year, payable either annually or semi-annually in advance, this expense to cover the cost of operating the association as well as at least one or two social gatherings during the year, it having been proposed that one annual banquet, one outing and as many other dinners or social affairs be held during the year as may be considered advisable by the entertainment committee. It is proposed to have the membership addressed by prominent railroad and steamship officials, also other prominent public speakers, in addition to which other forms of entertainment will be provided.

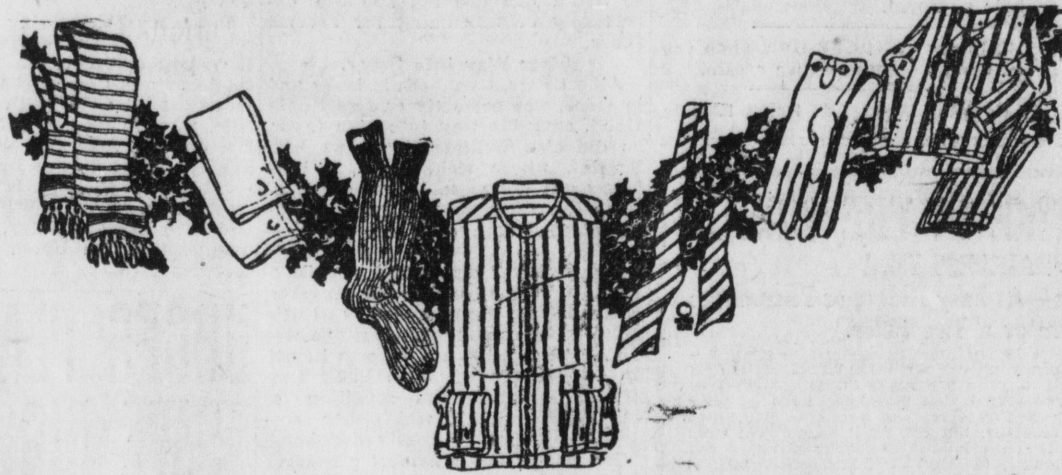

At the meeting, R. C. Horner, of the Santa Fe city ticket office, Los Angeles, was elected temporary chairman and Lester DeWill, of the Salt Lake city ticket office, temporary secretary-treasurer, to act until the regular election of officers, which will be held at an open meeting to which all eligible for membership will be invited, Wednesday, January 14th.

For more than two hundred years Lithuania was the largest state in Europe.

# Here are Some Suggestions For Gifts That Will Surely Please Him

Milady, there's no need of worry about being able to please "him." It's merely a question of remembering that he likes practical things and that every man has a sort of "hobby" for certain articles of dress. It's very easy to select such a gift here — where he would buy if he were selecting a present for himself.

## Why Not a Sweater?

It is a gift that will give a man more real comfort than anything you could possibly select. Choose a slip-over style or made like a coat, small or large collar

\$4 to \$12.50  
Thermo Coats \$8.

## Pajamas

—Certainly a practical, and surely a nice gift. Since a man spends nearly one-third of his life in bed, why shouldn't he be comfortably clothed?

In Muslin, Soisetter or Comfy Flannellette

\$2.25 to \$8

## A Suit or an Overcoat?

—One of these makes the nicest family gift—club together and surprise dad, son or brother with a fine suit or coat. You know the kind we have—Hart Schaffner & Marx stylish garments all at next spring's prices.

\$40 to \$55

Suits and Overcoats of other makes at from

\$22.50 to \$35

## House Coats

—The easiest way to keep a man home evenings is to make him so comfortable he won't care to go out.

—One of these "comfy" jackets will surely fill the bill. A wonderful value for

\$12.50  
War tax 50c.

## Bath Robes

—Just put yourself in his place — wouldn't it please you if you found a nice bath robe among your presents? —Surely it would and it will please him. Lots to choose from

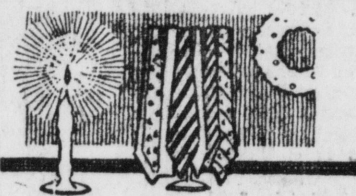

\$10 to \$20

## Shirts He'll Admire

And he will wear them, too. These good-looking, fast color shirts will number themselves among his favorites.

\$2 to \$11

## Givable Ties

"When in doubt — give ties." We can assure you there will be no doubt about pleasing him if you choose from these rich patterns.

65c to \$3.50

## Gloves

always acceptable.

—And they're doubly acceptable when they bear the name "Dents."

—Various styles and colors in Arabian Mocha and Cape leathers.

\$3 to \$4.95

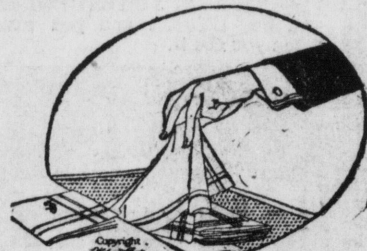

## Auto Gloves

—Here's where we shine—You will find here the very style he likes best.

—Gauntlets, lined and unlined \$4 and \$5.

—Strap wrist, lined and unlined, \$3 to \$8.

—Wool Gloves, 50¢ to \$1.00.

## His Initial

on a fine handkerchief surely adds an air of individuality to his dress.

—Fine linens, 50¢ to \$1.00.

—Mulls, initialed, plain or fancy bordered, 50¢.

—Package handkerchiefs, two for 25¢, 25¢ each.

## More, "Sure Fire" Suggestions

Stetson Hats \$10

Huff Co. Hats \$5

Smart Caps \$2 up

Umbrellas \$2.50 to \$10

Initial Belts \$1 to \$4.50

Merchandise Orders for any amount,

Phoenix Silk Hose \$1

Holeproof Lisle 50¢

Imported Wool, \$1.50

Gray, Black and Heather Wool 50¢ to \$1.00

## For a Boy's Christmas!

## To Make a Boy Happy

—Every boy has a secret longing for something or other "like Bill has." Perhaps it's shirts or ties, or a cap or hat. Whatever it is, if you see that he has it for Christmas, he will be a happy boy.

SUITS and OVERCOATS  
SWEATERS  
BELTS  
CORDUROY

PAJAMAS  
BLOUSES  
SHIRTS  
CAPS—HATS  
TIES

STOCKINGS  
LEATHER COATS  
WOOL SHIRTS  
MACKINAW  
CUFF LINKS

You are invited to visit this Christmas store and see the fine gifts we have for men or boys, whether or not you purchase. All goods may be exchanged after Christmas or your money back if you so desire.

## S. A. MAN'S SON HAMON WIDOW'S ATTORNEY IN OKLAHOMA

Judge C. W. Ellis, Resident  
Here Five Years, Father  
of Administrator

### KNOW SLAIN MAN WELL

Reconciliation Was Near at  
Time Murder Occurred,  
Is Declared

That numbers of Santa Ana people are more than passingly interested in the murder of Jake L. Hamon, of Ardmore Okla., became known today when it was learned that the son of Judge C. W. Ellis, of 602 So. Birch street, is attorney for Hamon's widow, as well as for the administrator of the Hamon estate.

Hamon, former Republican National committeeman and oil millionaire, is supposed to have been killed by Mrs. Clara Hamon, a distant relative whom he had employed as his stenographer.

Judge Ellis has been a Santa Ana resident for about five years. He was formerly district judge of the twenty-fourth judicial district in Kansas.

His son, F. R. Ellis, is an Oklahoma attorney, practicing at Lawton, Okla. about eight years ago was a law partner of Hamon in Lawton, in the firm of Hamon and Ellis. About that time Hamon left the profession of law, went to Ardmore, and got into the oil game, where he made a fortune which is valued at between \$10,000,000 and \$20,000,000.

Knaw Hamon Well  
Judge Ellis knew Hamon well. He stated today that Hamon was good hearted and generous, and a good business man. He also stated that for the past few years, since Hamon has been in the oil business, it was well understood among those who knew him that his employment of Mrs. Clara Hamon as a stenographer was merely nominal.

Mrs. Jacob Hamon, the murdered man's wife, is a very lovely woman, according to Judge Ellis. He stated that since the advent of the stenographer, Hamon and his wife had been estranged.

Although Judge Ellis had seen nothing of Hamon for about eight years, when his son's law partner—

## Boys of 'Y' Clubs Will Camp at Modjeska's From December 27 to 31

Dismay felt by the boys of the various "Y" clubs throughout the city when it was announced that there would be no club meetings between December 20 and January 1, was dispelled today following the declaration that the Y. M. C. A. camp near Modjeska's home would hold open house from December 27 to 31, inclusive. All members of the city "Y" clubs will be eligible to take part in the outing.

Everything that goes to make a delightful week in the open will be available for the boys.

Hikes, campfire gatherings, games and other outdoor activities will feature the five days in camp.

The mountains are beautiful and the camp is now in wonderful condition, according to R. R. Miller, secretary of the Y. M. C. A., who visited the location yesterday.

Any boy who has attended any former "Y" camp will know what to expect and may be counted on not to miss the camp this year if he can possibly go, says those who have been to camp before.

## RANCHER SELLS RICE BY UNUSUAL METHOD

WILLOWS, Dec. 14.—Owing to inactivity in moving rice this year, a Willows grocer, named Miezleich, had adopted plans of his own to dispose of his crop. He started out and made a house-to-house canvass and took orders for 3000 pounds of rice, which he will put up in packages to suit the purchaser. He intends to keep on going over the Sacramento valley until he sells his entire season's yield. Miezleich states that this is a practical way of educating the people to eat rice.

## DRAINAGE DISTRICTS WILL WIDEN CREEK

CHICO, Dec. 14.—Representatives of four large drainage districts met in Biggs yesterday and made tentative plans for complying with the Moulton injunction granted with reference to drainage waters which are dumped into Butte creek from this county. At the conclusion of the meeting it was agreed that representatives of the districts confer with the Moulton Irrigated Lands company at a meeting to be held in Gridley on December 18, and then definite arrangements will be made for the opening of the main drainage canal to the Sacramento river.

By pooling their interests the four districts will pay acreage pro rata toward widening Butte creek in the sections where the Moulton Irrigated Lands company complains its lands are damaged by overflow waters.

## RURAL CARRIERS HERE REACHING 1000 HOMES

Postmaster Urges Co-Operation  
Between Merchants  
and Farmers

Closer co-operation between the merchants of Santa Ana and the farmers of this section, through means of the six rural routes linking more than 1000 families, was urged today by Postmaster C. D. Over-shiner, who cited the advantages of the postal system now that the Christmas season is here.

The six rural carriers operating from the Santa Ana postoffice leave every morning at 7:45 and cover a total distance of 145 miles. They not only deliver parcel post, but collect it on their routes for mailing to all parts of the country.

Postmaster Over-shiner said: "The rates for this local zone are very low, being five cents for the first pound and one-half cent for each additional pound, with a limit of seventy pounds. The service can be utilized not only for the holiday trade, but through all seasons of the year."

"For a small additional fee, parcels may be insured, or sent special delivery, or C. O. D."

"Let our merchants and farmers get together. The farmer can phone his order or mail it by the morning carrier, and the merchant can prepare the order for mailing not later than 6 p. m. of the same afternoon, and the package will be delivered the next morning."

"Practically all mail on the rural routes is delivered by noon. This matter is worth considering."

## HAITIANS PRACTICE VOODOOISM, CHARGE

WASHINGTON, Dec. 14.—Voodooism, involving human sacrifice, is prevalent in the island of Haiti, says a report by Rear Admiral H. S. Knapp, submitted to Secretary of the Navy, Daniels, who sent Knapp to investigate conditions in Haiti.

"Voodooism is snake worship," Admiral Knapp said. "In its extreme it requires the sacrifice of human beings, the drinking of their blood and the eating of their flesh."

LAYTON TAKES TITLE  
CHICAGO, Dec. 14.—Johnny Layton was the new three cushion billiard champion today following his close victory here last night over Bob Cannell of San Francisco, who held the title. The game went 99 innings, Layton winning 75 to 64.

## PIPE SHORTAGES MAY HOLD BACK CITY PAVING

Permits Given for Starting  
Improvements of Four  
Streets

There is a possibility that some of the street paving that is contemplated in Santa Ana may be held back by reason of the fact that water pipe is hard to get.

"The three-quarter-inch pipe is especially hard to buy," said Water Superintendent Walter Wray today. "We have been scouting for it far and wide, but everybody else wanting it has been doing the same. Whenever a carload of pipe arrives in Los Angeles, it is parceled out all over Southern California. Nobody is getting what he wants."

The board of city trustees has a rule that all water, sewer and gas pipes must be laid upon a street before paving starts. The reason for that is that the necessity for cutting pavement will be reduced to a minimum.

At a meeting of the city board last night the proposal was made that a petition for paving Ross street from Walnut to Camille be started. The board asked Water Superintendent Wray to make a survey of the street and report to the board what the conditions are so far as water and sewer connections are concerned.

The amount of water pipe to be laid by the city is an item to be watched closely. It may be that the city will be unable to lay the water pipe within any given period.

Preparing to Pave.  
The firm of Wells & Bressler were given permission to begin preliminary work on four pieces of street in preparation for paving. This, they are to see that all water, gas and sewer connections are made at once, so that the streets can be shut off for paving.

Those four streets are: South Ross street between First and Walnut; West Washington avenue between Sycamore and Broadway; Durant street between Washington and West Seventeenth; Walnut street between Birch and Parton.

Street Superintendent Hoy was instructed to secure bids for the paving of the alley running east and west from Bush to Main north of Third street.

For Christmas Tree.  
The city board last night voted \$100 to be used in defraying expenses of the community Christmas tree celebration to be given at Birch park. The celebration is to be in the hands of the Santa Ana Musical association.

A claim for an amount between \$300 and \$500 has been presented to the city by the Spicer Dry Goods Co. for damage done to goods in the store basement when the basement was flooded by water that came in from beside a water pipe connection.

Last night Chairman J. G. Mitchell, of the board, was authorized to appoint someone to check over the damage done. The Spicer claim for damages has not yet been acted upon, and the city has not admitted its responsibility.

A map showing Tract No. 123, comprising land owned by J. W. Kennedy, E. P. Stafford and others north of Santa Clara avenue, was accepted by the trustees.

Permit If Granted.  
C. R. Jordan was given permission to erect a shed at the southeast corner of Second and Sycamore streets. This shed is to be something like auto park sheds, only it is to be used for the storage of vegetables. The permit is for one year.

Trustee J. W. Tubbs and Walter Greenleaf were appointed as a committee of the city board to confer with Dave F. Smith, of the association or organizations, cities and counties interested in the proposed new motor vehicle act. The city has a letter from Smith in which Smith asks that suggestions for changes in the present motor vehicle act be made at once, so that all motor vehicle legislation can go into one bill.

A committee is to investigate the petition of W. S. Carlyle to build a small garage at the corner of Fifth and Bristol streets.

W. B. Alexander, West Fifth street, was given permission to move a tire shop to the rear of a lot and to install a gasoline filling station.

## MARYSVILLE WOMEN TO PLANT SHADE TREES

MARYSVILLE, Dec. 14.—Decision to plant shade trees in several parts of Marysville, including the east side of B street from the subway north to the levee, was made yesterday by the Women's Civic Improvement Club at a special meeting held in Packard Library, after a consultation held with Farm Adviser William Harrison and Horticultural Commissioner George Harney. The funds for the purchase of trees will be obtained by a series of entertainments.

Christmas Candles—25c lb. "Ye Old Fashioned Chocolate," 40c lb. at the Lion Kandy Kitchen, 211 W. 4th.

## PLANES AND AIRSHIPS WELCOME HARDING ON RETURN FROM TRIP

There was the blare and the roar of mighty steam whistles and the sullen hum of airplanes and dirigible engines when the good ship Pastores passed Old Point Comfort carrying President-elect Warren G. Harding and his vacation party home from their jaunt. The upper picture shows the Pastores as she appeared with a fleet of circling aircraft including the dirigible A-4. Insert shows the president-elect reading the message of greetings wirelessly to him by Secretary of State Colby as the latter steamed out of the harbor as Harding entered.

## NOT MAKING OIL CLOTH BUT IS AFTER OIL

Under the terms of a lease which has just been signed and which is of more than usual interest to many Orange county people, two oil wells are to be drilled at Huntington Beach on five acres owned by the Pacific Oilcloth & Linoleum company, it was learned today.

The oilcloth company has many stockholders in the county. War conditions, scarcity of materials and the high cost of labor necessitated the closing of the factory months ago. The discovery of oil in the vicinity of the company's property has brought new life to the company, and there is now prospect that stockholders will come through the deal in good shape.

The company secured excellent terms on its lease. An officer of the company stated today that the lease was made to as good advantage as any lease made in the Huntington Beach field.

The lease is given to Miley & Keck, who are Taft and McKittick operators. Under their lease they are to begin drilling within ninety days on the five acres owned by the oilcloth company. Two wells are to be put down, according to their lease contract. This company now has about 200 acres under lease in the Huntington Beach field.

ACCIDENTAL SHOT  
FATAL TO HUNTER  
FRESNO, Dec. 14.—Peter J. Dooling, son of Congressman Peter Dooling of New York City, met his death from the accidental discharge of a rifle being shifted from one position to another in an automobile near Fresno. This was the verdict of a coroner's jury here in the investigation conducted by Sheriff Jones.

Dooling was driving an automobile on the last day of the trip from New York to San Francisco, with Huro Engle and Joseph C. Farrell. Farrell will leave with the body for New York early tomorrow morning.

## PASTOR, BURNED, DIES FROM HIS INJURIES

CANBY, Ore., Dec. 14.—Following injuries received Thanksgiving day, when a can of kerosene exploded in his home here, Rev. J. Josselyn, pioneer Methodist missionary and minister in the northwest, died here west for fifty years and established many Methodist churches in Washington, Oregon and Idaho. He recently celebrated his fiftieth anniversary as a minister. With the late Rev. T. B. Ford and Rev. L. M. Maworth, Dr. Josselyn was one of the three Methodist missionaries sent into the northwest in pioneer days. He has occupied many pulpits in Washington and Oregon.

## FRESNO PLANING TO HANDLE UNEMPLOYED

FRESNO, Dec. 14.—Confronted with a serious situation owing to the influx of hundreds of unemployed to this city from all parts of the West and even the Eastern states, it has been found necessary to formulate plans by which the unemployment plan may be handled.

The first step toward solution of the problem was taken by Mayor W. E. Toomey, who called a mass meeting of all business men, civic club members, representative women of the city and welfare workers. At the conference, plans under consideration by city and county officials will be outlined and discussed, with the probable result that some plan of action will be adopted. A measure which is being given the most serious consideration calls for the erection of a municipal lodging-house and employment bureau, where men who are seeking work may get lodging at a nominal rate. The employment service would be maintained free of charge under the tentative plan.

## SUICIDE VERDICT IN WIDOW'S DEATH CASE

CHICAGO, Dec. 14.—Harry C. May, general manager of the Monon Railroad, told the coroner's jury that he was a platonic friend and business adviser to Mrs. Minnie Viola Reynolds, pretty widow who was found dead in his luxuriously furnished apartment Saturday. A verdict of suicide was returned after witnesses said Mrs. Reynolds had been melancholy and that her room was filled with gas fumes when her body was found.

## U. S. TESTS SWISS AIRPLANE SILENCER

GENEVA, Dec. 14.—American army aviation experts, headed by Major Burwell, are expected to arrive soon in Dubendorf, four miles northeast of Zurich, to attend a test of an airplane silencer, invented by the Swiss engineer, Birger, says a dispatch from Zurich. The Americans will be sent from Coblenz to Dubendorf, the dispatch adds. It is said America may buy the patent for the silencer if the test proves successful.

## BOYS FIGHT FOR RIFLE; LAD WOUNDED IN SIDE

DAILY CITY, Dec. 14.—Carl Pelka, 14 years old, the son of Mrs. Celia Pelka of 54 Alpha street, was accidentally shot this afternoon by Ben-Hudon, 12 years old, 528 Lison street. With a companion the two boys had been playing with a rifle. While young Pelka was at a distance, the boys scuffled for the possession of the rifle, during which Hudon accidentally discharged it. The bullet accidentally struck Pelka in the left side. He was taken to the South San Francisco Hospital, where it was said that he will recover.

## SEEK MAGAZINES FOR SAILORMEN IN HOSPITALS

Appropriateness should be considered in sending old magazines to the United States Naval hospital at Balboa park, San Diego, for use of the sailor patients there, it was stated today by Mrs. Alva Padgham, of Santa Ana, chairman of the hospital recreation department in Southern California of the Federated Woman's clubs.

Many well meaning people, especially women, are prone to send almost "any old kind" of magazine to the hospitals where there are sailor patients. Obviously, a sailorman has no use for a magazine on housekeeping or other subjects that interest only women, Mrs. Padgham said.

A letter received in Santa Ana from Major Ernest Raill, field director of the naval hospital at Balboa Park, states that there are now approximately 240 patients in that institution. The number probably will be increased by 100 by January 1, the letter stated.

"The principal entertainment that we are keenly interested in is Christmas," wrote Major Raill, "and we of course are very anxious to receive contributions on that date."

"Any old magazines containing short stories, such as the Red Book, Blue Book, Cosmopolitan, Harper's, Century or Popular Mechanics, would be most acceptable."

The magazines are distributed among the ships of the fleet, as well as among the patients at the hospital, the letter said. "There is always a demand for jellies and jams," it was stated.

## RICHMOND LAUNCHES ROUNDUP OF CROOKS

RICHMOND, Dec. 14.—The first results of the order of Chief of Police W. H. Woods to the members of the department to arrest all suspicious characters came when Elbert Moody, Wayne Nolan and Charles Meriko, ranging in age from 20 to 25, and claiming to come from San Francisco, were taken into custody. They had been loitering about pool rooms for the past two days. They have been "mugged" and fingerprints taken and investigation of their records will be made.

## MORRIS DROPS FROM SPEAKERSHIP RACE

SAN FRANCISCO, Dec. 14.—Clarence W. Morris of San Francisco announced his withdrawal as candidate for speaker of the Assembly at the next session of the State Legislature. The withdrawal, it was said, would leave Speaker W. H. Wright unopposed for re-election unless a new candidate shows up before the Legislature meets, January 3.

## PILGRIM STORY WILL BE TOLD IN DRAMATIC WAY BY 250 IN PAGEANT

Spectacle Plan Grows Into  
Stupendous Community  
Activity

### TICKET SALE IS BEGUN

Directors Busy In Shaping  
Six Episodes for  
December 21

Keenly interested in producing a notable pageant, 250 men, women and children of Santa Ana this week are centering their thoughts and activities upon the Pilgrim Pageant, to be given in Santa Ana next Tuesday, December 21.

The whole plan of the pageant has developed into a stupendous community affair. The spirit of the Pilgrim forefathers is to be pictured in Santa Ana in a beautiful way. It is planned to bring home to the people of today the lessons of devotion and liberty as taught by the example of the stalwart men and women who crossed the Atlantic in the historic Mayflower.

Santa Ana is to have a part in the celebration of the three hundredth anniversary of the landing of the Pilgrims. That part, as shown by rehearsals and general community interest, will be a big success.

Tickets for the pageant are being sold this week, and during the remainder of the week the committees having in charge that part of the pageant preparation will be busy.

To Tell the Story  
The Pilgrim Pageant as it is to be presented in Santa Ana will tell the story of the Pilgrims in a dramatic and effective way.

Six episodes are to be presented, each episode in a place separated from all of the others. It is planned that every person who buys a ticket shall begin at the beginning, Episode No. 1, and go from place to place until the entire six episodes are seen.

Episode No. 1 is to be shown at the First Methodist church. It will picture a group of Hollanders bidding farewell to the Pilgrims. The director for this episode is Mrs. Al. Davis, assisted by Mrs. S. M. Davis, Mrs. Charles A. Robinson and Mrs. John Clarkson.

A Dutch windmill is to be a part of the scenery for this episode. A folk game is to be played by a group of Junior high school girls directed by Mrs. Nettie Wolfe.

An Indian Scene  
The second episode is to be an Indian scene, presented at the Temple Theater. Mrs. W. F. Menton is director, and her assistants are Miss Hazel Bemis, Mrs. J. E. Gowen, Mrs. C. F. Smith, Mrs. Ollie Matthews, C. A. Gustlin, Mrs. J. E. Liebig, Mrs. Arnold Peek and Miss Jeanette McPadden. A war dance and a feather dance will feature the pictures of Indian life.

The third episode is to be "The Landing of the Pilgrims." This will be shown at the First Presbyterian church. Miss Meta Daniels and Miss Edith O. Scott are directors here, with Miss Edith Knox, as president of the Girls' League of the high school, members of the league, and Miss Shepherd of the high school, as the Pilgrims. This episode will bring the Pilgrims into touch with Indian life.

Episode No. 4 is called the Miles Standish episode. Longfellow's poem is presented in part, in three scenes: John Alden's soliloquy, Priscilla's reception of Miles Standish's proposal, and the wedding scene. This is to be presented at the First Christian church. Mrs. F. T. Porter and Miss Jennie Lasby are the directors.

First Thanksgiving  
The fifth episode will be presented at the First Baptist church, with Ray Adkinson and Sidney Saunby as directors. They will be assisted by members of the American Legion and other patriotic organizations.

This episode will show the "First Thanksgiving." In this scene will be an assemblage of all of the Pilgrim characters.

The sixth episode is to be presented at the First Congregational church. Miss Birdina Henry is in charge, with Miss Lauritzen as her assistant. Mrs. F. W. Slabaugh is training a group of high school girls for singing in this presentation. "The Folks of the Glean." This episode will picture the present day Pilgrims seeking in America the freedom that they desire and need for their development. A moving tableau will be shown. The scene closes with the message of the Star of Bethlehem. There are some wonderfully effective moments in this episode, as there are in every episode of the six.

The arrangements for the pageant have been in the hands of a committee. Mrs. John Clarkson is general manager for the pageant.

GIVES GRAZING REPORT  
YREKA, Cal., Dec. 14.—The Trinity national forest, according to the report of the commission in charge, grazed last season 15,469 cattle and horses, 22,227 sheep and goats and 1125 hogs. These are exclusive of what were grazed on private lands within the forest boundaries—2075 cattle and horses, 6850 sheep and goats and 220 hogs.

## "CLAXTONOLA" "MANDEL" Phonographs

The new triumph of musical quality and artistry, ranking with the best machines on the market, regardless of price. Plays any record. The tone delights the listener, being a true rendering of the works of great musicians. The beautiful cabinets add much to the satisfaction of the purchaser.

Do not buy a  
phonograph until  
you have heard  
this marvel of  
tone reproduction.

"Help Us Grow" 416 West 4th St. Santa Ana-Cal.

## Cheerier Homes for Winter

Let us start with the dining room. Here in the average home the family assembles three times a day—for the food that sustains life and the happy companionship that only family circles can know. Here as each member of the family partakes a hasty breakfast, a cheerful atmosphere starts the day aright. Here in the evening as twilight shadows begin to fall, the whole family gathers round the dining table, to satisfy keen appetites, rehearsing the happenings of the day and strengthening family bonds of love and affection.

## S. A. MAN'S SON HAMON WIDOW'S ATTORNEY

(Continued from page nine.)

ship was dissolved, he understands, he says, that Hamon was about to effect a reconciliation with his wife at the time of his murder. It is believed that the fact that he was about to leave her aroused Mrs. Clara Hamon, the stenographer, to such jealousy that she quarreled with Hamon, and finally killed him.

#### Still Fugitive

Mrs. Clara Hamon is still a fugitive from justice, and it is freely believed in Oklahoma that she is being shielded from prosecution by powerful friends of Hamon, who do not want to have the murdered man's name dragged in the mire.

Immediately following Hamon's murder, F. R. Ellis, Judge Ellis's son, was retained by Hamon's wife to guard her interests. He was also retained by Frank Ketch, business manager of Hamon's oil interests, who is now administrator of Hamon's estate.

### UP-STATE NEWS

MARYSVILLE—Mrs. Mary Cameron Bevan, wife of County Assessor E. Bevan of Yuba county, died at the family home at 624 C street here, after a long illness. She was a native of Missouri and was 52 years of age, but came to Marysville when an infant. Until her last illness she was deputy county assessor under her husband for a number of years.

COLFAX (Placer Co.)—That the establishment of a plant for the extraction of oil from pine needles may be started shortly near Forest Hill, was the statement given out here by A. J. Egenhoff, representing a number of business men from Oakland.

WILLOWS (Glenn Co.)—For several days a suspicious looking character has been loafing around town, posing as a chimney sweep. Yesterday he displayed an I. W. W. card, and boasted of his affiliation, making himself generally obnoxious. The police gave him thirty minutes to separate himself from the community. He went.

WILLIAMS (Colusa Co.)—The Williams American Legion Post has formed a Vigilance Patrol to assist the officers of the town and county in preserving peace and order and in running down the outlaws and highwaymen, who have been operating in and near the Williams community. A rigid motor patrol will watch all the roads in this section; an obstruction will be used to stop machines when it is deemed necessary. This action follows several recent bold hold-ups.

SACRAMENTO—According to George Neale of the State Fish and Game Commission, the registrations at the free auto camp grounds maintained by the commission at Tahoe City numbered 1336 during the past season, which opened this year on July 1 and closed in September.

STOCKTON—Heavy sentences were handed out today by Judge J. A. Plummer to two defendants who had pleaded guilty to driving automobiles while intoxicated. Their applications for probation were denied, and each was given a fine of \$500 with the alternative of spending 230 days in the county jail. George Morton of Fair Oaks and J. C. Meyer of Modesto were the defendants.

FRESNO—A cabinet boom for a Californian has been launched in Fresno through the indorsement by the Labor Council delegates, representing between 6000 and 7000 union labor members, of Congressman John I. Nolan for the secretaryship of labor in the Harding cabinet.

FRESNO—Swarms of unemployed men are coming to Fresno, many of whom have already arrived, in search of employment. The influx, which was at its highest yesterday, brought over a thousand men to this city. It was estimated by the police, who are kept busy separating undesirable vagrants from among the itinerants. Nearly a hundred were booked at the county jail yesterday as vagrants.

MADERA—Mrs. C. Farnsworth was appointed visiting nurse at the meeting yesterday of the board of supervisors. Mrs. Mary Wagner was appointed assistant. These appointments follow a long campaign on the part of the Woman's Improvement club to obtain a nurse to visit the different schools and the homes of the poor in the county.

VISALIA—In early anticipation of the expected influx of tourists who are expected to crowd the Sequoia National Park as the result of the prospective enlargement, now officially deemed certain, Visalia is already planning, as the official gateway to the park, the erection of a third big hotel. J. Sub Johnson, owner of the largest hotel in the city, is already laying plans for a new building to center in an entire block and to be built on the court plan.

SCOUTS TO HONOR RANGERS. PASADENA, Dec. 14.—The Boy Scouts of this city are going to have an entertainment to raise funds to purchase Christmas gifts. But the gifts are not for mothers or daddies or orphans or the poor; but to purchase gifts for the ideals of their scout hearts, the Forest Rangers, "the fellows who make the hills safe for the meandering scout excursions."

## WAR GAS FATAL TO GRASS VALLEY VET

GRASS VALLEY, Dec. 14.—A touch of poison gas suffered at the front in France is believed to have led to the death in Oakland this week of Frank Crockett. Crockett was one of the first men to enlist from this section. Later he was transferred to the 361st Division and sent to France, where he became a sergeant. Following his discharge, Crockett returned here, and less than a year ago was married to Miss Lillie Curnow. Recently the couple had been living in Oakland, where Crockett contracted pneumonia, with fatal results.

## CHINESE LOSING IN SILK PRODUCTION

Although silk production originated within the Chinese Empire many centuries ago, and for a long time remained a secret with that country, the failure to adopt modern methods in production and manufacture has caused the Chinese silk industry to be surpassed by that of other countries employing more efficient practices.

Within the past two decades "pebrine" disease has affected the silkworm, causing the cocoons to be of inferior quality and reducing the amount of high grade silk in the cocoon. Little or no attention was paid to the prevalence of the disease and until recently no steps taken to eradicate it.

Scientific studies conducted in recent years have resulted in solutions for the difficulty, but little has been done in China towards adopting these methods. In some cases the scientific and technical schools are teaching these modern practices and laying the foundation for the practicing of these improved methods of sericulture.

Methods Are Antiquated. Furthermore, the employment of antiquated methods in the reeling of silk has contributed toward increasing the amount of waste silk and decreasing the percentage of the higher grades of raw silk from the cocoons. Operatives have been given no training in careful reeling, and this accounts for what has sometimes been considered carelessness on the part of reelers.

This inefficiency in the production of the cocoons and in the reeling has resulted in constantly reducing the amount of raw silk available for export and in increasing the waste silk which does not command so high a price. The decrease in the raw silk is shown by the exportation of 9,000,000 pounds in 1913, as compared with 8,000,000 pounds in 1918; the increase in the waste silk during this period amounted to 2,000,000 pounds, rising from 15,000,000 to 17,000,000 pounds.

## OREGON MAY BAR STATE'S POTATOES

SACRAMENTO, Dec. 14.—Whether or not California potatoes are to be barred from Oregon because of the potato tuber moth will be decided at a hearing announced for Wednesday, December 15, at Salem, the Oregon capital. Representatives of this state will be William R. Lazerle, president of the California Wholesale Potato Dealers' association; L. J. Weishaar of the State Standardization service, and Lee Strong, chief deputy quarantine officer. This delegation was chosen at a meeting of the Potato Dealers' association in San Francisco.

There has been much discussion in Oregon of the tuber moth, which the California growers say does little or no damage, and to which little attention is paid here. Recently it was announced that California potatoes would be admitted if treated under the vacuum fumigation system.

Such a system, says F. W. Read, in charge of the standardization service of the State Department of Agriculture, kills all pests, but it would be expensive to prepare for. He estimates the cost of a plant to fumigate carlots would be some \$30,000, and that it would take several of such plants to handle the potato business of the state.

Read hopes the Oregon authorities will adopt a plan to be presented by Weishaar, under which all potatoes bearing the inspection certificate of the California Standardization service would be admitted without question. Failing in securing this, Strong will present a modified plan. The potato shipments from California to Oregon run from about 600 to 1,000 cars every year.

## BURGLAR, SHOT BY OFFICER, WILL LIVE

CHICO, Dec. 14.—Harry Lamberson who was wounded seriously here by Policeman Jesse Harden, will live, physicians said. According to Harden, Lamberson resisted arrest when caught in an attempt at burglary. Police said Lamberson is the 20-year-old son of R. L. Lamberson, Portland, Or. farmer. He and his brother came here recently and registered as H. E. Jones and E. A. Smith of Oakland, according to police who are holding the brother pending investigation.

NEW FOREST DISTRICT. WASHINGTON, D. C., Dec. 14.—The establishment of a new field district comprising the Chugach and Tongass National Forests in Alaska, with headquarters at Juneau, is announced by the Forest Service, to take effect January 1, 1921. The new district will be in charge of District Forester Charles H. Flory, who is at present Superintendent of National Forests in Alaska.

Nearly all of the business of the Alaskan forests will be transacted in the future on the ground by the district forester and the forest officers, the officials of the Forest Service state.

## Managed by Successful Los Angeles Business Men

The erection at San Pedro of the splendid shipbuilding and ship repair business of the Los Angeles Shipbuilding and Dry Dock Company is due in large measure to the far-sightedness of a group of successful business men of Los Angeles. These men foresaw that with the resumption of sea trading between America and the great markets of the Orient the need for such a business would be imperative.

The location at Los Angeles Harbor is strategic. It is in direct rail connection with the interior workshops of the nation. The great Circle Route from the Panama to the Orient lies but a few miles off the coast, making Los Angeles Harbor an easy port of call.

The Los Angeles Shipbuilding and Dry Dock

Company own and operate the only large dry dock facilities south of San Francisco. This Company, therefore, is in excellent position to get more than its share of repair business.

These facts give the investor assurance that his funds invested in this Company's 8% Serial Gold Bonds are soundly invested. Total assets subject to this bond issue exceed \$8,000,000. The property on which these bonds are a first lien is valued at nearly \$5,000,000.

Average annual net earnings have exceeded in each year the par value of this entire bond issue. Serial annual retirement of bonds steadily increases equity behind outstanding bonds.

The price of these bonds is 100 and accrued interest on all maturities. The yield is 8%.

Call at our office in person, write or phone for Circular completely descriptive of this high-grade investment security.

## To Further Prove Texcal's Production

Just 1500 feet from Texcal's Well, Standard No. 3 is proving the depth of the Huntington Beach oil sands! Other wells have shown that better than 500 feet of oil-bearing formation lies beneath the latest and greatest of California's gusher fields!

Remember that the bringing in of this well, now drilling into the gusher production, will be just one more proof of the production that Texcal stockholders can look for in their own well.

Remember, too, that progress on Texcal's well is moving rapidly—that the well is nearing completion with swift strides—and that when we secure gusher production, YOUR chance to own Texcal shares will have passed. Get YOUR stock now! Don't delay one moment. Stock is rapidly selling out, and we cannot guarantee that \$1.00 price will remain open for more than a few days.

## REPORTS CONDITIONS SEEN IN ROUMANIA

SAN BERNARDINO, Dec. 14.—C. F. Fraley, formerly principal of the technical school, is now in the Y. M. C. A. service in Roumania, and yesterday his friend, A. D. Littleton, received an interesting letter from him.

"Roumania is an interesting place to be in, but nothing like the U. S.," writes Fraley. "When I get back to California I never want to leave there again. Of course some one informed you that I am a married man now. Very much so and if you could only see our little apartment which overlooks the Black Sea, you would say that Fraley is very happy. It is a fact and if you are still in San Bernardino when we come back we will look you up."

"Our work here is with the army and the Roumanian soldier surely needs something to relieve his condition. He gets two cents a day and works from 7:30 till 6 o'clock. Only 80 per cent cannot read or write, that is, of the entire population. All of the officers are educated and wear very nice uniforms, but the poor soldier, he hasn't even decent shoes. I've seen many of them without shoes. Many go about in old U. S. uniforms. They have a very large standing army of a million men. Every man must serve at least two years in the army."

"The crops were very good this year. Corn and wheat and oil are the principal articles of export. We see American-made goods in every city, also canned goods. There seems to be more Ford in the capital city than any other make of car. Here in this port we see ships from all countries, bringing machinery and manufactured articles and taking away grain and oil."

"Only last Sunday, October 31, I had a ball game and on part of the field there was two or three inches of snow, but that didn't seem to make any difference with the players. They would play soccer football in any weather. Can you imagine a snow storm in October?"

The letter was written from Constantza.

Mr. Fraley left here during the war and served with the Y. M. C. A. in France and after his return went to Oakland and thence to Bulgaria and later to Roumania.

## CIVIL WAR VETERAN IS DEAD AT CHICO

CHICO, Dec. 14.—De Witt Clinton Cuddeback, veteran of the Civil War, died at the home of his son, William Cuddeback, here, at the age of 82 years. Cuddeback was born in Illinois June 2, 1838, the son of pioneer parents. In 1862 he enlisted in the Union Army, and was transferred to the Army of the Potomac as color sergeant. Among the many engagements in which he figured was the battle of Gettysburg.

After this fight he was discharged, but re-enlisted in 1864, serving until the end of the conflict. In 1870 he came to California. He was a past commander of the Marysville G. A. R. He is survived by his widow and nine children.

Spencer Corset, 801 Spurgeon St.

## Evolution Assailed

Sermon by Rev. J. G. Kennedy, at the United Presbyterian church, December 12.

A week ago Friday four of the teachers of the Santa Ana schools rushed into print to inform the community what sort of evolution was being taught here. They informed us that it was "Evolution as a doctrine of descent opposed to the doctrine of special creation." There is no place left in such a statement for any such creation as is clearly taught in Genesis and in many other parts of the Bible, for the Bible insists that there has been special creation.

They admit that "unfortunately many popular presentations of the theory of evolution are tainted with this atheistic view." They might have said saturated with atheism. That is exactly where it has led. Hosts of the students in our schools. It led German scholars to teach that there were 100 men in Germany the superiors of Jesus Christ, and a teacher in a California university to assert that there were forty men in California the potential equals of Jesus Christ. And why not with 2000 more years for man to evolve? They assert that "all men of science subscribe to this doctrine." This statement is absolutely inexcusable, for they must have known that it is not true.

### Challenge Statement

They claim all the universities, colleges and larger high schools in the United States of reputable standing teach the doctrine of evolution as a FACT. This statement is flatly challenged.

They assert that this teaching is not unlike what is written in Genesis. Read the first chapter and answer for yourself if it is anything like it. "After His kind," and "Let Us make man in Our image, after Our likeness" has no place in evolution without special creation.

They quote authorities from the Darwinian celebrations, and the Britannica, as though this settled the question for all men. When the Calvinists celebrated the four hundredth birthday of Calvin, there was not an Armenian theologian on the programs, but that did not prove that all men were Calvinists. Every body knows that the encyclopedia get specialists to write the articles on their special line. Of course, the strongest evolutionist would be chosen to write on that topic.

Their contention is that the doctrine has passed from theory into fact and they try to cram it down our throats without proof, because there are many who have accepted it. Truth has always had a lonely time in the world with the worldly wise men. Scholars took no stock in the preaching of Noah. And the teachers of Christ's day would have none of His doctrine. It was all foolishness to the learned Greeks as well as to the Jews. "The wisdom of this world is foolishness with God."

They wish us to accept evolution as a fact. Darwin never taught it as a fact. Fifteen times on one page, "Origin of Species," p. 171, he admits the refrain of doubt, and over eight hundred times in his two books he comes back to the same uncertain note.

### Quotes Spencer

Spencer says, "Some evidence small in amount," "Biology," p. 255. Similar quotations were made giving book and page from Tyndall, Drummond, Virchow, Huxley, Von Meyer, Wallace, who was a co-laborer with Darwin and afterward repudiated the whole thing.

Whitney of Yale, Jevons of Union College, London, Gray of Harvard, Wilson of Columbia, Holmes of University of California, Prince of Union College, Conn., DeVries, quoted by the professors, wrote "Natural selection may explain the survival of the fittest but it cannot explain the arrival of the fittest." Ormsby of the University of the United States, Henslow, Lord Kelvin, Beal of Kings College, London, Alexander Graham Bell, Bateson and others—all these scientists admit that the theory has not been proven and many of them hoot at the thought.

The theory of evolution has been taught since 650 B. C. The primordial germ has been taught by the teachers of their day to have been water, fire, numbers, air, moist earth, entrails of bulls, putrid matter, etc., and the learned professors dogmatically asserted that to question these assertions was to "question reason, sense and experience." That has been a favorite argument, by the way, from that time "till Friday a week ago by many who lack any other kind of conclusive proof."

After all, it is not a question of how many scientists believe it or teach it, but, is it an established fact? If it is not true, the wider it is taught the greater is the calamity. Before we give up the Bible, that has withstood the attacks of enemies for thousands of years, for a theory whose defenders find fault with preachers who quote from scientific books that are over twenty years old, it will be well to make sure that the theory is a fact.

### Definition Given

What is evolution? LeConte is authority with our professors. Here is his definition. "Evolution is progressive change, according to certain laws, by means of resident forces. The process pervades the whole universe and the doctrine concerns alike every department of science, yea, every department of human thought."

There you have it. No place for a Creator God. All progress must come from resident forces. Not only does this definition crowd God off the earth but from the whole universe. What arrogance! What atheism! Fortunately, LeConte left a place for preachers to get in on the discussion as well as scientists, for theology is one branch of human thought.

Is evolution a FACT? We might well hope to find some proof from the archaeologists who have for years been searching diligently the face of the earth for the facts of the past.

Look into archaeology. If there ever had been uncovered anywhere evidence going to prove the fact of evolution it would surely have found its place in the British Museum where most of the ancient relics find their way.

Yet, Dr. Etheridge, superintendent of the Department of Natural History, says, "In all this great museum there is not a particle of evidence of the transmutation of species. Nineteenth of the talk of evolutionists is sheer nonsense not founded on ob-

servation and wholly unsupported by FACTS."

Geology is Cited  
Failing to find any proof from archaeology we might well hope to find some convincing proof from geology. This used to be favorite ground for the evolutionists, for fossils were found in the different strata of rock. Of course, the oldest fossils were in the oldest rock and the youngest in the upper layers. But these fossils have been found out of proper place in many fossils just below some of the youngest, and this process repeated three or four times on top of each other, the oldest fossils reappearing three times on top of each other with various fossils between.

Then thousands of square miles have been found in many parts of the earth with these fossil beds wrong side up. The Challenger and other expeditions in the interest of science have proven that strata and fossiliferous rock are not now being formed in the bottom of the sea. See "Fundamentals of Geology" by Price.

Here the oldest fossils have their living representative today that have bred true through the centuries. Clearly no indisputable proof can be found in this field for the fact of evolution.

### Radioactivity

Molecules were once considered the smallest physical divisions of matter. Chemistry compelled division into smaller proportions called atoms. Now comes electricity in the form of radioactivity and divides the atom into 1760 parts called electrons. These are constantly giving off particles.

Uranium gives off helium atoms. When four such atoms are given off we have radium which in turn gives off three kinds of particles. When it is exhausted, we have lead.

Here is not the evolution of matter, but its disintegration. Its transmutations are always by loss not by gains.

The elements of high atomic weight are now known to be disintegrating into elements of lower atomic weight. This process has been actually proven in the case of one-third of all the known elements and is supposed to hold true in all the others.

This degeneration is in line with the well-known fact that the world has been throwing off heat faster than the sun is renewing it. All the facts of radioactivity go to show that the earth was created with qualities that are now found to be exceedingly rare. Evolution is shown in this, not evolution.

### Discusses Biology

DeVries was quoted by the professors as one of the rediscoverers of Mendel's law. "It is true he shouted vociferously for a while but he and many others who know the latest facts have quit shouting about Mendel's law as a proof of evolution."

The law is briefly this: When two divergent varieties of plants or animals are crossed and neither dominates the other, the first generation will all be mixed. The second generation will revert one-fourth to one parent and one-fourth to the other and half will still be mixed. These mixed ones will breed one-half back

to the two parents and one-half still be mixed.

Where one is dominant the first generation will all take after the dominant parent, the second generation will begin to breed back to the original kinds.

Where two characteristics are considered at the same time in the second generation six seemingly new kinds are found, three favoring each side. BUT THESE NEW KINDS ARE ALWAYS cross fertile with original stock and breed back as soon as the hand of intelligent guidance is lifted.

Prof. Thomas Hunt Morgan of Columbia University and his six assistants have been breeding the wild fruit fly according to this law for about eight years. They have originated under Mendel's law hundreds of new varieties, but all are cross fertile and revert to type. They have bred them with wings of various lengths and without wings with eyes of various colors and without eyes in an open milk bottle IN A SINGLE STEP, not by any long process of evolution. But they breed back again to the original type.

No wonder he becomes sarcastic in his recent book "A Critique of Evolution," p. 67, "Over arm chair theories as against the facts."

Hear Huxley at this point. "Our acceptance (of evolution) must be provisional so long as one line is wanting. So long as selective breeding is fertile with one another the link will be wanting. "Man's Place in Nature," p. 127.

Prof. Coulter of the University of Chicago says, "Forms preserved by artificial selection revert." Prof. Price of Union College in "New Light on the Doctrine of Creation," p. 98, says "The verdict of an impartial investigator must be that we have never seen a new species originated by any natural or artificial methods since the dawn of scientific observation."

Prof. Edward Jeffrey of Harvard in Science of April 3, 1914, says, "The mutation theory of DeVries appears accordingly to lag useless in the biological stage and may apparently be now relegated to the limbo of discarded hypotheses."

Bateson in Scientific American Supplement Jan. 3, 1914, "The essence of Mendelism is that the parent cannot pass on to offspring an element, and consequently the corresponding property, which it does not itself possess."

The theory of Mendel goes to show that instead of imparting more than the parent possesses, as evolution requires, it actually imparts less than it possesses.

Biologists must prove that a new character has been added that no ancestor ever possessed, and show that this new character will breed true under all circumstances without the supervision of man, in order to sustain a theory of evolution.

Acquired Characters are never Transmitted.  
Spencer said, "Either there has been inheritance of acquired character or there has been no evolution."

Thos. Hunt Morgan of Columbia said, "Today the theory has few followers among trained investigators; but it still has a popular vogue that is widespread and vociferous." "A Critique of the Theory of Evolution," p. 32.

August Weismann, E. Ray Lankester, and A. R. Wallace strenuously deny that acquired characters are ever transmitted.  
Coulter of Chicago University: "It

## 'BLUE SUNDAY' PLAN GETS COOL TURN DOWN

WASHINGTON, Dec. 14.—The overwhelming opposition in congress and throughout the country to the proposed national Sunday "blue law" caused the reform organizations here to announce the complete abandonment of their purpose to press such a measure upon congress.

The announcement was made by the Rev. Dr. Wilbur F. Crafts, superintendent of the International Reform bureau, the chief proponent of the rigid Sunday observance act.

Doctor Crafts said the reform bureau has planned a campaign against all forms of gambling, the chief feature of which will be a bill to prohibit the transmission of betting information in interstate traffic. The bureau is also concerned, he said, in a measure to segregate the whisky of the country into a few warehouses in order that it may be better guarded at less cost. Hearings have been held in congress on the bill to prohibit the export of morphia in which the bureau is interested. The fourth measure which will receive attention from Doctor Crafts and his associates is one to regulate the motion picture industry, establishing a federal bureau of censorship.

## NEVADA EASTERN STAR ELECTS NEW OFFICERS

RENO, Dec. 14.—Mrs. Winifred Goodwin has been elected worthy matron of Nevada chapter, No. 13, O. E. S. Other officers elected are: William M. David, worthy patron; George MacNorton, associate matron; Mrs. Effie Coughlin, conductress; Mrs. Ruth Mathews, associate conductress; Mrs. Tegwin Daniels, treasurer; and Mrs. Ida R. Foster, secretary.

is generally believed that acquired characters are never transmitted." Price of Union College: "Acquired characters or rather parental experiences are never transmitted." This, after the greatest variety of tests have been made by many investigators. "New Light on Creation," p. 81.

But two exceptions to this rule have ever been found and they concern two repulsive diseases that attack the embryo itself.

The Evolutionist's Task

Before our professors have a right to expect us to believe that evolution is a fact they must prove:

- 1.—That life has been spontaneously generated.
- 2.—That hybrids have ever been fertile.
- 3.—That acquired characters have been transmitted.
- 4.—That parents have transmitted to offspring what they themselves did not possess.
- 5.—That embryonic life has reproduced itself, has improved itself, and has preserved itself.
- 6.—How the vital forces got their origin.
- 7.—How feeling, reason and speech got their origin.
- 8.—How Jesus Christ came into being, how He was resurrected and how He ascended.
- 9.—All this, before they can expect intelligent Christians to accept their theory as a fact.

Much help was received in the preparation of this sermon from "New Light on the Doctrine of Creation," published in 1917 by G. M. Price, and "Theistic Evolution," 1919, by Alfred Fairhurst.

## THEY'RE FULL ALL THE TIME. GOODYEAR HEAVY TOURIST TUBES DON'T LEAK.

Did you ever have your tire go flat when the car was standing in the garage over night? A leaky tube was to blame.

You won't have that trouble, if you use Goodyear Heavy Tourist tubes.

Build up, layer upon layer of the purest rubber compound — they CAN'T leak.

Make your next tube a Goodyear Heavy Tourist — we have them in all sizes.

Let your Goodyear casing be supported by a Goodyear tube.

CHAS. BEVIS

"You are Proud of Santa Ana."

## Out of Doors

THE many advantages of Santa Ana as a place to live in, are, in the final analysis, the result of Nature's bounty and man's genius. Here, between mountains and sea, Nature has blended Southern sunshine and ocean breeze into the most perfect climate in the world. Men and women, with the spirit of adventure and development, have done the rest.

Here the best roads in the world lead through the most beautiful scenery in the world. Everywhere the landscape is dotted with wonderful picnic spots which lure to healthful recreation. Throughout the year Orange County's 160-acre park is the mecca for Nature lovers from all over the Southland, while Hewes Park, the monumental work of Orange County's famous pioneer, David Hewes, is known far and wide as a horticultural Eden.

Santa Ana is truly a place where every man may live close to Nature while adding his share to the progress of humankind. Situated as the city is, in the very heart of the world's great playground, a fairy-like touch of romance seems to tinge our work-a-day world.

The new arrival will find a cordial California welcome and a spirit of helpfulness at these banks. Come in and tell us how we can serve you.

# News From Orange County Towns

## COMMUNITY CLUB AT BUNYARD HOME

**HANSEN STATION, Dec. 14.**—The Ladies Community club will meet with Mrs. O. P. Bunyard next Thursday.

Dr. and Mrs. Chandler were guests of friends at Long Beach, Saturday and Sunday.

Mrs. H. H. Hammond had the misfortune to run a rusty nail into her foot, causing it to be a very painful wound.

Mrs. Al Kemp and little daughters were visiting Artesia, recently.

Mrs. Johns and Mrs. Jack Dugan attended the Parent-Teachers' association at the Anaheim high school last Tuesday.

The lack of carpenters did not hinder the building of George Triggs' new house. The neighbors, assisted by George Triggs, Hansen's well known builder, contributed their labor and built the house. The Triggs moved into their new house at once, as the house in which they had been living was sold and they were forced to find another.

Mrs. Johns of Cypress, is in Riverside for a few days as the guest of her mother.

Mrs. Dora Fels visited with friends in Los Angeles during the past week.

Homier Eddy and wife, were guests at the birthday anniversary of H. L. Hathaway, in Anaheim recently.

Mrs. Morgan Jones is visiting in Fullerton at the home of Mrs. W. M. Hunt, for a few days.

Harry W. Krotz, brother of Mrs. Jack Dugan, has accepted the position of superintendent, with the Army and Navy store in Los Angeles.

The Farm Center meeting at Cypress Thursday evening was well attended. The speakers, H. B. Woodrough and R. V. Wright, the latter of the State university were well received, and many interesting pointers were given to the ranchers. The box social netted \$30.15. Cuthbert Miller, the jolly auctioneer kept up a lively interest and every one present was well entertained. Three readings were given by Mrs. Johns, Mrs. William Alfanaph and Thelma Dugan.

Jack Denny is installing water pipes on his ten acres on Hansen Road.

Mr. and Mrs. Harry Krotz of San Diego, and children, and Mrs. N. Krotz of Huntington Park were visiting at the Dugan home, recently.

## TRAVELS 2,000,000 MILES, QUITS WORK

**TOPEKA, Kas., Dec. 14.**—After having traveled 2,000,000 miles and served forty-five years and seven months, J. E. Van Liew, veteran Rock Island engineer, retired Saturday when he pulled a passenger train into the Des Moines station from Council Bluffs. Van Liew for the last twenty-one years has been running between Des Moines and Council Bluffs. He began with the Rock Island as a fireman at \$2 a day and soon became an engineer. With the exception of a period of five months, during which he was incapacitated because of an operation, Van Liew lost but few days during his entire railroad career.

## FRESNO WILL SELL CONFISCATED BOOZE

**FRESNO, Dec. 14.**—Confiscated liquor seized by the local police department will shortly be placed on the market. Fresno, according to city officials, will be the first city in the United States to provide an amendment to cover the sale of liquor confiscated from bootleggers and blind pigs. Information has been received by City Attorneys Simpson to this effect.

The matter was taken up by the City Attorney several months ago. The City Attorney will immediately prepare an amendment to the present city ordinance, which will protect the city and permits will be obtained from San Francisco.

## U. S. DROPS CHARGE AGAINST EX-BANKER

**SACRAMENTO, Dec. 14.**—Upon motion of Deputy United States District Attorney W. Cully, Federal District Judge Bledsoe dismissed the indictment against Jasper N. Stuhr, former president of the First National Bank of Newman, Cal., who had been held partly responsible for misappropriation of the bank's funds. The prosecution claimed lack of evidence as the basis of its request. The alleged embezzlement from the bank discovered in 1919, totaled approximately \$100,000. Charges were made against William J. Burris, president, Stuhr, former president, and Frank J. Gomez Jr., by the Federal grand jury. Burris pleaded guilty to two indictments and is at liberty under \$30,000 bonds. Burris will be sentenced in April and Stuhr, whose case was dismissed, pleaded not guilty.

## JAPANESE ACCUSED OF WOMAN'S MURDER

**SACRAMENTO, Dec. 14.**—Mrs. Ushi Hersehma, wife of a rancher, was killed near here and K. Chigawa, who is suffering from self-inflicted wounds, is held as the woman's slayer. The woman's throat was cut with a butcher knife.

Chigawa, the police said, turned the weapon upon himself and is suffering from wounds that, physicians say, may prove fatal. The police said they believed the man insane.

## POST KILLS WOMAN WHEN HIT BY AUTO

**PHOENIX, Dec. 14.**—Mrs. I. T. Holland of Phoenix, wife of a former member of the Arizona legislature, was killed here when an electric lamp post knocked down by an automobile struck her on the head. The post was struck by a car driven by Mrs. W. V. B. Ames, in an effort to avoid collision with another car.

## ANNOUNCE PLANS FOR 40 ROOM APARTMENT

**ANAHEIM, Dec. 14.**—Manford Gardner of Orange, has announced plans for a 40-room rooming house on North Claudia street, just north of the Joe Lieb property. Gardner has purchased a lot 45x120 feet from Mrs. Whipperman of San Francisco.

It will be entirely modern in every way and is intended as a relief for the acute demand for rooms by business people. There will be hot and cold water in each room.

Gardner will not start construction before January 1, by which time he hopes to have building materials assembled so that he can rush the erection through by February 15.

He plans to lease the building.

## MANY PRESENT AT CHOIR PRACTICE

**EL TORO, Dec. 14.**—Choir practice was held at the home of Mr. and Mrs. Harvey Swartz, Friday evening. A large number were present. Refreshments were served and a pleasant evening was spent.

The next meeting will be at the home of Miss Vivian Helvie, Friday evening.

Miss Mildred Boley spent the week-end with Fernie Gould.

Mr. and Mrs. A. Trapp and family spent Thursday evening with Mr. and Mrs. I. L. Purdy of Sierra.

Mrs. P. T. Grafton of Westminster, formerly of El Toro, visited Mrs. W. D. Baker, Saturday morning.

Mrs. Wm. Helvie's parents, of Oregon, arrived here Thursday evening for an extended visit.

Hobart Purdy of Serra spent Sunday night with John Trapp.

A large number of friends were visitors at the home of Mr. and Mrs. Fred Rodgers, Sunday. They went into Trabuco canyon and gathered holly, during the afternoon.

Mr. and Mrs. A. Trapp and family spent Sunday with relatives at San Juan Capistrano, where the men attended a turkey shoot.

Dr. and Mrs. Loptich of Los Angeles spent Saturday and Sunday with relatives here.

Mrs. W. D. Baker, who has been ill at her home is reported better.

Mr. and Mrs. A. Trapp and family spent Saturday evening in Santa Ana.

## VISITS THREE CITIES IN SEARCH FOR HOUSE

**REDDING, Dec. 14.**—Neither Benicia, Sacramento nor Redding have houses to rent, according to Mrs. O. Swedman, who arrived here yesterday. Her husband is a diamond drill operator in the Little Nellie mine, near Keswick. The family had been living in Everett, Wash., but it was decided to make their home in Benicia, where they had lived before.

After spending three weeks in Benicia Mrs. Swedman was unable to rent a home. She went to Sacramento. There, she says, she was unable to rent a house in two weeks. So she came to Redding. She tried all day yesterday to rent a house, but she could find none vacant.

So in desperation and as a last resort the husband asked his wife to bring the children up to the Little Nellie mine and he would find housing for them there, even if the family had to seek shelter in a mining tunnel.

## BEACH LEGION HEAD IN CONGRESS RACE

**LONG BEACH, Dec. 14.**—Interest in the mass meeting of local Republicans to be held in the municipal auditorium here tonight to consider candidates for congress in the Ninth district, increased here when friends of Major Walter F. Linberger, president of the American Legion post, stated he would accept a nomination. Others mentioned locally for the place made vacant by the death of Charles F. Van de Water are Frank F. Meadlam, Galen H. Welch and Major S. M. Kerns.

## HUNCH FOR HOOGH

"What in the world did Jones want to buy that tawdry-looking house for?"

"Oh, I think he's going to dig for buried treasure. An old saloon-keeper used to own it," Judge.

Dr Magill. Osteopathy. Phone 956-W.

## ACHES AND PAINS—SLOAN'S GETS 'EM!

Famous pain and ache Liniment. kept handy, brings warming, gratifying relief

**R**HEUMATIC twinges ease up soon. So do stiff joints, lame back, neuralgia, overtaxed muscles, and those pains from weather exposure, too—they don't fight long against the counter-irritant that Sloan's Liniment produces.

Always keep this old family friend handy for instant use—a little penetrates without rubbing, leaving no skin stains, muzz, or clogged pores. Its very odor—healthy and stimulating—suggests the good it will do.

All druggists. Three sizes—35c, 70c, \$1.40. Largest size is most economical.

## Sloan's Liniment

For Sale in Santa Ana At PARSONS DRUG STORE Corner Fourth and Bush Sts.

## PLAN CHRISTMAS PROGRAM FOR CLUB

**BUENA PARK, Dec. 14.**—The Woman's club will meet at the J. F. Simpson home on next Thursday afternoon. Mrs. Simpson and Mrs. R. H. Meyer will act as hostesses. As this is the last meeting before Christmas the affair will be of that nature and it is hoped as many of the members as possible will be out to the meeting.

Edward Thurman, son of Mr. and Mrs. E. E. Thurman of South Grand avenue, left Monday for India where he will join his brother, Arthur Thurman. At present, the length of Mr. Thurman's stay in India is undecided. The equipment for the fire truck which was ordered some time ago, has arrived and is found to be all that could be desired. The chemical tank which contains sixty gallons of liquid is of bright red color and copper covers on top and bottom. The other accessories and appliances that go with the tank and truck are nickel covered. One hundred feet of hose completes the outfit. The fire company feel they can now take care of any emergency that may arise.

Programs by both the grammar school and the Sunday school and church are being carefully prepared and are being looked forward to with great expectancy. The entertainment by the grammar school will be given on next Saturday evening and an invitation is extended to the public.

A dance will be given in the Masonic hall by members of the Masonic fraternity on Tuesday night.

Friends of Edward Thurman met at his home on Saturday evening and surprised him with a farewell party and supper. Games and other forms of amusement were indulged in till a late hour.

Musical skidding was occasioned by the light rain on Saturday and travelers turning on Grand and Whittier avenues at Wright's corner, were doing lots of unplanned skidding, which however, resulted in no serious accidents.

Samuel Coughran has leased twenty acres of his ranch south of Buena Park to John Preston of Glendora who expects to set the place at once to Himalaya blackberries. Mr. Coughran has just completed a five room cottage on his place and he has had reconstructed the accommodation of Mr. Preston and his family.

Oscar West, who recently underwent a minor operation at the Whittier hospital, is recovering as rapidly as possible and has recently been able to attend to many of the business affairs of his establishment.

Miss Nila Paulkner and Miss Marie Crandall spent the week end at their homes in Santa Ana and Los Angeles, respectively.

Folks—can you really afford to own a car when you can rent one without driver for as little as \$3 a day? 7½ cents a mile. See Copson, 411 W. 4th. Phone 1426.

All photos made at Gibson's Studio up to the 18th of Dec. will be ready for Christmas.

## INSTALL OFFICERS AT EASTERN STAR MEETING

**FULLERTON, Dec. 14.**—The annual dinner and installation of officers for the coming year were the main features of the meeting of the Fullerton Eastern Star chapter held in the Masonic home, Saturday night. This was the first affair held by the members of the Star since the dedication of the new temple and there was a large turnout. Delegations were present from Alhambra and Ocean Park chapters as well as many visitors from the nearby cities.

The following are the new officers who assumed their duties: Matron, Laura B. Lillie; patron, R. J. McKee; associate matron, Zella Elson; secretary, Lavina McBride; treasurer, Estelle Welton; conductress, Rachel Robertson; associate conductress, Phyllis McKee; chaplain, Susanne McAulay; marshal, Carrie B. Lang; organist, Pearl Garrison; Adah, Pearl Garrison; Ruth, Elva Robertson; Esther, Myrtle Stuelcke; Martha, Goldie Graham; Electa, Estelle Newton; warden, Estella Courtney; sentinel, Chappell Perry.

## LAUREL HEIGHTS NEW SUBDIVISION

**BREA, Dec. 14.**—Laurel Heights is the pretty name chosen for the new subdivision in Brea. Lots are being rapidly sold. It is located southeast of the city and is just beyond the site selected for the new grammar school. A corner lot on the boulevard has been sold to the American Legion post 181 at a bargain.

Some boys are soon to launch a subscription campaign for funds to build a new club house.

Several of the Masonic fraternity for Brea attended the dedication of the Masonic temple in Fullerton, Wednesday night.

Mr. and Mrs. J. E. Reynolds have moved into their new home while the work of finishing, continues.

Mrs. Williams has sold her home on South Walnut street to C. C. Meyers.

Larger transformers and improvements on the lines are being made by the Edison company. Half the town was in darkness, Friday evening through some trouble with the transmission lines.

During the school year arrangements for a series of entertainments, whereby the school children can all secure tickets for next year's chautauqua will be made. Thursday and Friday nights of this week the first of the series of programs is to be produced.

Eugene Hilliard and W. Dana Spicer were visitors here from the Huntington Beach oil field.

All photos made at Gibson's Studio up to the 18th of Dec. will be ready for Christmas.

## BELL TOWER BLOWN DOWN IS REPLACED

**YORBA LINDA, Dec. 14.**—The bell tower at the fire house, which was blown over during a wind storm last week, is again firmly in place.

Mrs. Burns and son are visiting the former's sister, Mrs. Mary Allman, at the George Quigley home. They will spend the winter in California.

Mrs. Kinney of Brea, sister of Mrs. Mary Brophy of Yorba Linda, passed away this week. Mrs. Brophy has the sympathy of the community in her bereavement.

Mrs. Mary Allman suffered a bad fall a few days ago. Her injuries were quite serious and will confine her to her home for an indefinite time.

Mr. and Mrs. Charles Selover entertained Mr. and Mrs. Vasco Mills and children, Mrs. Geraldine and Arlington Mills, at dinner on Sunday.

Mr. Paul Tretyde, who has been a sufferer for many months, passed away at his Yorba Linda home last Friday. Funeral services were held on Monday. A number of beautiful floral offerings testified to the esteem in which Mr. Tretyde's friends held his memory. He leaves a widow and five children to mourn his loss.

Miss Hallie Allee spent Thursday in Los Angeles.

Mrs. Della Miller and Mrs. Ben Selover were recent Los Angeles shoppers.

Mrs. E. N. Gage of Huntington Beach, was in Yorba Linda last Tuesday.

Mr. E. C. Townsend and son Robert were Los Angeles visitors, Thursday.

The Yorba Linda Y. M. C. A. boys were the guests on Wednesday evening of the Fullerton Y. M. C. A. A most enjoyable time was reported by the boys, who voted the Fullerton Y a royal host.

I. S. Seal of Los Angeles, has been spending several days on his ranch here.

Mrs. Mabry, mother of Mrs. Covington, is spending two weeks at the Covington home.

Mr. and Mrs. E. B. Walker entertained Mr. and Mrs. E. E. Knight and Mrs. Wade at cards on Saturday evening.

Mrs. Bischoff and daughters of Los Angeles, were Sunday guests at Valley View ranch.

Mr. and Mrs. Lloyd Buckmaster and children motored to Anaheim on Sunday to visit Mr. and Mrs. E. J. Ley at their new home.

Mrs. Gene French of Whittier, was visiting relatives in town on Monday.

The Misses Marie and Mildred Cole spent the week-end in Whittier.

Direct route to Los Angeles via Motor Transit Lines leaving the depot at 5th and Sycamore, street on half hourly schedule every day. The quickest route to Anaheim or Fullerton.

## —the Golden State Limited

is a 68-hour train to Chicago  
A high-class fast train, over the "line of low altitudes"—straight to El Paso, on to Kansas City and Chicago.

Leaves Los Angeles at 11:15 a. m. and arrives in Chicago 9:15 the third morning. This means connection at Chicago with fast trains for New York and eastern cities.

All equipment, including diner and compartment-observation car, through without change. Also a through sleeper for St. Louis and one for Minneapolis, daily.

—No. 2, "The Californian," is another train over the Golden State Route, running through to St. Louis. Leaves daily at 4:30 p. m.

**\$1.00 in Prizes**  
For Those Who Will Try

This page of advertisements from some of Santa Ana's progressive firms will appear each week. You ought to know where each of them is located. If you do not know it will pay you to find out.

From 10 advertisements on this page each week the street address will be omitted. Read the advertisements. When you find one that contains no address write it down and take the advertisement to that place of business. That firm will give you absolutely free, \$1.00 credit on anything you wish to purchase—if you are the first to bring the advertisement in.

Remember—the \$1.00 will be given to the FIRST person bringing in the advertisement. You may win as many prizes each week as you can. You may win ALL the 10 \$1.00 prizes if you get around early enough. Just watch for this page, read it as soon as you get your paper, and go directly to the places of business whose advertisements give no addresses.

No prize will be given any Register employee or employees of the firms represented on this page. Now get busy! See how many prizes you can win each week.

# Vitamines

-what they mean to you

Plenty of Vitamines in Your Food Produces

Rapid growth  
Virility  
Full development  
Greater vitality  
Resistance to disease  
Sturdy health and life

Lack of Vitamines in Your Food Causes

Diminished growth  
Mal-nutrition  
Lowered vitality  
Susceptibility to disease  
Paralysis  
Death

*Betsy Ross Bread*

TWO mysterious forces in Nature contribute to man's well-being. *Electricity*, the mysterious element in the air, whose presence cannot be seen nor its nature understood, but whose power has added immeasurably to human welfare and human progress. *Vitamines*, the mysterious food-element necessary to life and health.

Why Vitamines are a necessity of life we do not know. Like electricity, their nature is not fully understood. Science has only recently proven that they exist as tiny atoms in certain foods, and that without these life-giving Vitamines children cannot develop normally nor grown-ups maintain their strength and energy.

You get Vitamines in green vegetables, grain, fruits, butter, rich milk. You get them abundantly in BETSY ROSS Bread. For as Franklin harnessed the mysterious electricity of the air for the benefit of humankind, so BETSY ROSS Bakery, through right selection of ingredients and scientific baking methods, has harnessed the mysterious life-giving Vitamines to produce a loaf of the highest food value—BETSY ROSS, truly "the staff of life."

## To the People of Santa Ana and Orange County

On Saturday December 18th

—A new institution will be established in the Progressive March of the Commercial Life of this Community.  
—The American National Bank, located on the southwest corner of Fourth and Broadway, will open its doors on Saturday December 18th, 1920, at 9 a. m. and remain open until 9 p. m.  
—The opening of this bank will be a striking point in time from which lesser occurrences will be dated.  
—Santa Ana has grown with such rapidity during the last few years that the present banks are overwhelmed with business and we feel that the time is opportune for a new banking institution, which will help in some measure to solve the problem of taking care of the growing demands of the city. We hope by fair treatment and courteous attention to details of business to merit the patronage of our friends.  
—It is a source of no little gratification to know that the demand for stock in our new bank is such that many were disappointed in their applications.  
—You do not need us to tell you that the opening of a bank is the result of much serious consideration, grave counsel and prolonged deliberations. Your National Government sent representatives here to determine whether or not this community needs the services of the American National Bank, and the issuance of this charter is material evidence that it does. Therefore, the opening of this bank is really an important event to the community, so important that you will undoubtedly want to become personally identified with it in some tangible lasting way, by being a First Day Depositor.

"THE BANK WHERE YOU FEEL AT HOME"  
Santa Ana, California

## HAYTI MINISTER SECURITIES AS IS RAPPED BY PRESIDENT GIFTS URGED BY BANKER

PORT AU PRINCE, Hayti, Dec. 14.—The President of the Republic of Hayti, Philip Dartiguenave, sat for nearly two hours in the reception room of his palace the other day and discussed with American newspaper correspondents the troubles and hopes of his people. Toward the end he became extremely emphatic and bitter in denunciation of some of the American officials with whom, as President, he must deal.

In that interview the President said the American civil administration in Hayti was "more oppressive than the military," criticized the acts of the American minister, Bailly Blanchard, and John McIlhenny, the financial adviser, and said no serious measures had been proposed with a view to placing Hayti's finances on a truly solid basis.

**An Unusual Spectacle.** It was an unusual spectacle. The President was speaking directly for publication. After each sentence he hesitated while the palace interpreter translated from French into English, and he hesitated again until his words had been put down. A Lieutenant-Colonel of Marines, attached to the army of occupation, now trying to help Hayti into better paths, sat beside him, silent.

The room was as bare as the parlor of a boarding-house in some big industrial center. A crayon portrait of the President was the single wall decoration. Two pieces of furniture that might serve as hat racks stood against the wall, and ranged around a green rug of ordinary worth were probably a dozen chairs precisely like those found in the dining rooms of hundreds of humble American homes. There was nothing to suggest the time-honored idea that a palace of a President is filled with priceless things. They are making handsome rosewood fixtures in France for the palace, not yet completed, but as it stands today it is bare to a degree.

**Hand-Me-Down Suit.** The suit on the President's back was in keeping with his living surroundings. It would not bring \$20 anywhere in the United States. Dartiguenave is a bachelor, around 55 years of age. He and his brother, the Secretary of the Interior, live alone. There is no mistress of the palace.

After the interview had drifted along slowly for upward of an hour the marine officer, with whom the President is on most intimate and friendly terms, broke in to ask if he might not smoke. Instantly the President, gracious and smiling, was on his feet, and, stepping briskly out of the room, returned quickly with a box of cigars. The box contained what Vice-President Marshall has declared he was anxious to see come back into fashion—good 5-cent cigars.

**Wait on Reporter.** Interviewing a President often is a hard-boiled proposition, but not so in Hayti. One incident illustrates Dartiguenave's lack of pomp. A reporter, scratching wildly, called for a copy paper and before a fellow worker could give aid the President of Hayti again was on his feet and fetched the paper from the cabinet room near by. You can't beat that for Presidential hospitality.

### EMERGENCY OFFICERS OFFERED POSITIONS

Five thousand five hundred and eighty-nine emergency officers have been tendered appointments in the regular army, according to information received by army recruiting officials. Of these 928 were appointments in the medical corps and among the chaplains, leaving 4661 appointed in the other branches of the service.

Under the congressional act of June 4, 1920, 5469 vacancies were created and congress required that not less than one-half of the total number of vacancies caused by the act, exclusive of those in the medical department and among the chaplains, should be filled by the appointment, to date from July 1, 1920, of persons other than officers of the regular army, who served as officers of the United States army at any time between April 6, 1917, and June 4, 1920.

The war department was, therefore, required to appoint not less than 2735 new officers, but, under the policy, adopted by 324 medical officers, 104 chaplains and 4661 officers in other branches were tendered appointments. There were, therefore 1926 appointments made in excess of the minimum required by the statutes.

Corner Fourth and Bush Sts.

SAN FRANCISCO, Dec. 14.—Letters have been sent to scores of Chambers of Commerce, commercial organizations and business houses throughout the Twelfth Federal Reserve District by Theodore Hardee, Director of the government savings organization for that district, asking co-operation in stimulating the use of Government securities, such as Liberty Bonds, Thrift and Savings Stamps, and Treasury Savings Certificates.

Director Hardee said in his letter: "It is probably not going too far to say that most Christmas presents are disappointments. Often they have no intrinsic value and bring little pleasure either to the giver or to the recipient. Most people would rather have the money spent for a Christmas present than the present itself."

"Better even than money are the securities of our government. In the case of Savings Stamps and Treasury Certificates they are rock-ribbed investments, backed by the nation's strength, increasing in value every month and maturing in five years from the first month of the year of purchase at an interest rate of four per cent compounded every three months."

"Especially in the case of children, presents of Thrift Stamps, Savings Stamps or Treasury Savings Certificates, which are described in the attached folder, are valuable as presents in that they tend to stimulate a desire on the part of the child receiving them to own more and thereby build up the important habit of Thrift and Saving. What one really does when one makes a present of these Thrift securities is to present the recipient with the savings habit, at the same time aiding our government in its post-war financing."

"You will indeed serve the country well at this time if you will call this matter to the attention of your members at one of their meetings, or in any other way you deem best, at least two weeks before Christmas. Perhaps you may see fit to publish this communication in your house organ or submit it in the form of a circular letter to your membership."

At 7½ cents per mile, 5 people can travel for less than bus, train or street car fare, not to say anything about the added conveniences and comfort in going and coming when and where others don't go. When taking your next day's outing, remember Copson rents cars without drivers.

## FRESNO LEGIONS IN EDUCATIONAL DRIVE

FRESNO, Dec. 14.—Believing that a large number of Fresno county people are unaware of the real purpose of the American Legion in asking the supervisors to call a bond election to vote \$950,000 for memorial halls in Fresno county towns, Fresno Post No. 4 is considering

plans for an educational campaign throughout the county. It is planned to organize a group of speakers to attend all legion meetings in the county and to provide publicity on legion activities in support of the proposed bond issue. "The purpose of our proposed bond issue is not generally understood," said Dr. E. M. Johnston, commander of Fresno Post No. 4, at a recent meeting of the executive committee. "Practically every community in the county will

benefit in many ways by the proposed bond issue, because it is intended to provide them with splendid community auditoriums, something they otherwise never may obtain without large municipal expense."

Home-made candies at home-made prices. Nougats, fudges, creams. Lion Candy Kitchen, 211 West 4th.
